EXECUTIVE &  
CONFERENCE CHAIRS.

# Fina Soft

Slim and comfortable.

Slim design, outstanding comfort characteristics: that's Fina Soft. This new conference chair brings the slim Fina line to the conference area - convincing with uncomplicated comfort along the way.

brunner ::

# Ray Conference

A chair, made as if all of a piece.

Everything merges fluidly: the delicate arm-rests are invisibly mounted to the frame and the plastic shell, and the seat covers are attached in such a way that no seams or zippers are visible.

brunner ::

MEETING AND VISITOR CHAIRS.

# A-Chair

Gets things sorted.

The A-Chair will amaze with its elegant appearance even when positioned away from the stage. A single A-Chair looks stunning enough; fill entire rooms with them for the real wow factor.

brunner ::

# Crona

Clean design with interesting focal points.

Separation doesn't have to be painful. In fact, with Crona it's a good thing: a dividing seam between the upper back section and the lower seat area gives the full upholstery a unique look.

brunner ::

# Crona Felt

The very best in felt.

It doesn't take long to see its benefits - all the more time to enjoy them. The unusual look of Crona Felt is the result of a fixed seat shell made from non-woven material in four different colours.

brunner ::

# Crona Light

Always striking the right note.

Large numbers of people seem to gather in the vicinity of the Crona Light. That is either because the chair is particularly stunning or a true all-rounder - thus ensuring it is always invited along to meetings.

brunner ::

# Crona Light Touch

Try it out in comfort!

With this chair, we top this even more: or, to put it another way, an interior through liner on the crona light plastic shell. That way the wide range of colours is preserved, even with the additional comfort.

brunner ::

HAWORTH®

# Crona Steel

Brightening up outdoor spaces.

Although the flat steel struts of the Crona Steel run in parallel, some surprising things also converge here: despite its robust design, it will help you to relax - indoors and outdoors.

brunner ::

# Fina

Go lightweight.

Fina is the most comfortable solution. As a shaped wood shell, in various upholstery variants or plastic, this chair offers enough flexibility for any room.

brunner ::

# Fina Club

Club? Bar? Why not both?

Coffee and milk, gin and tonic, Fina Club and Fina Bar: with their angled four-legged oak frame, these two fit together so well that every visit is a pleasure. Now: have you decided what to order yet...?

brunner ::

# Fina Wood

Exciting and innovative.

Fina Wood combines apparent opposites to form an interesting unity: a high-quality plastic seat shell and a shapely oak wood frame. This stacking chair is the perfect complement to the Fina family.

brunner ::

HAWORTH®

The history of the Fox is the history of the Brunner company. This chair was not invented at a desk, but invented in practice, based on the needs of the people who would use it.

brunner ::
