## OVERVIEW

When it comes to building walls, you have options. And you have even more if you choose architectural walls instead of conventional construction. They're simple to install. Adaptable to the inevitable changes in your facility. Aesthetically pleasing. And as cost-effective—or even more economical than—traditional walls.

# SUPPORTED

Haworth has an automated design process using CANVAS. We can quickly turn your design into detailed wall specifications with:

- Renderings
- Floorplans and Elevations
- Pricing

We can even host an interactive design meeting so you can view options and changes before you make a final decision.

We support your project team with:

- Revit
- AutoCAD
- Google SketchUp

**BENEFITS**

CHOICES

**UNITIZED**

Walls are factory-built and arrive fully assembled for tilt-in installation.

Unitized Wall Panels:

- Glass
- Solid (with Electrical and Utilities, with Furniture Mounting)
- Doors + Frames

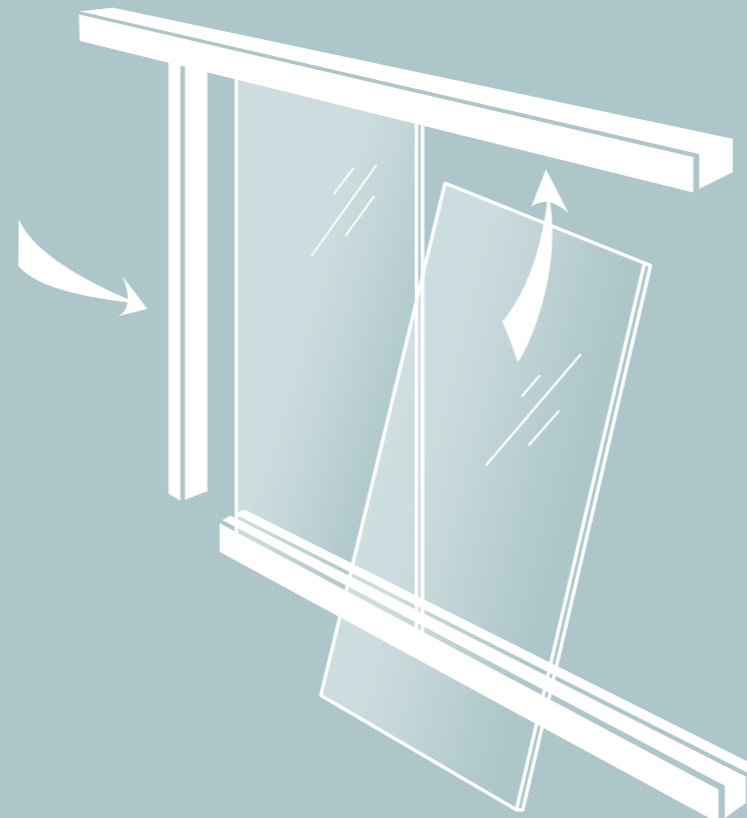

**DEMOUNTABLE**

Walls arrive as a kit of parts and are assembled on site.

Demountable Wall Components:

- Structure (Vertical and Horizontal Frames)
- Glass
- Solid Wall Tiles
- Doors

## SOLUTIONS

One company. Three architectural wall systems.  
And unlimited possibilities.

At Haworth, we've developed a whole portfolio of wall solutions that expand what you can do inside a building's architecture. Enclose, Enclose Frameless Glass (EFG), and Trivati provide three beautiful, practical ways to meet a variety of specific needs. No matter what your reasons for choosing architectural walls, we have a product tailored just for you.

ENCLOSE

Enclose is an architectural wall system with all the fluidity of furniture and all the presence of permanent walls. A clean, simple design provides a timeless look, while a 10-year warranty ensures the performance will last just as long. Sustainably designed to anticipate change, its moveable panels offer endless adaptation. It all adds up to a performance that's so versatile, it surpasses conventional construction.

**OVERVIEW**

**BENEFITS**

**SOLUTIONS**

**EXPERIENCE**

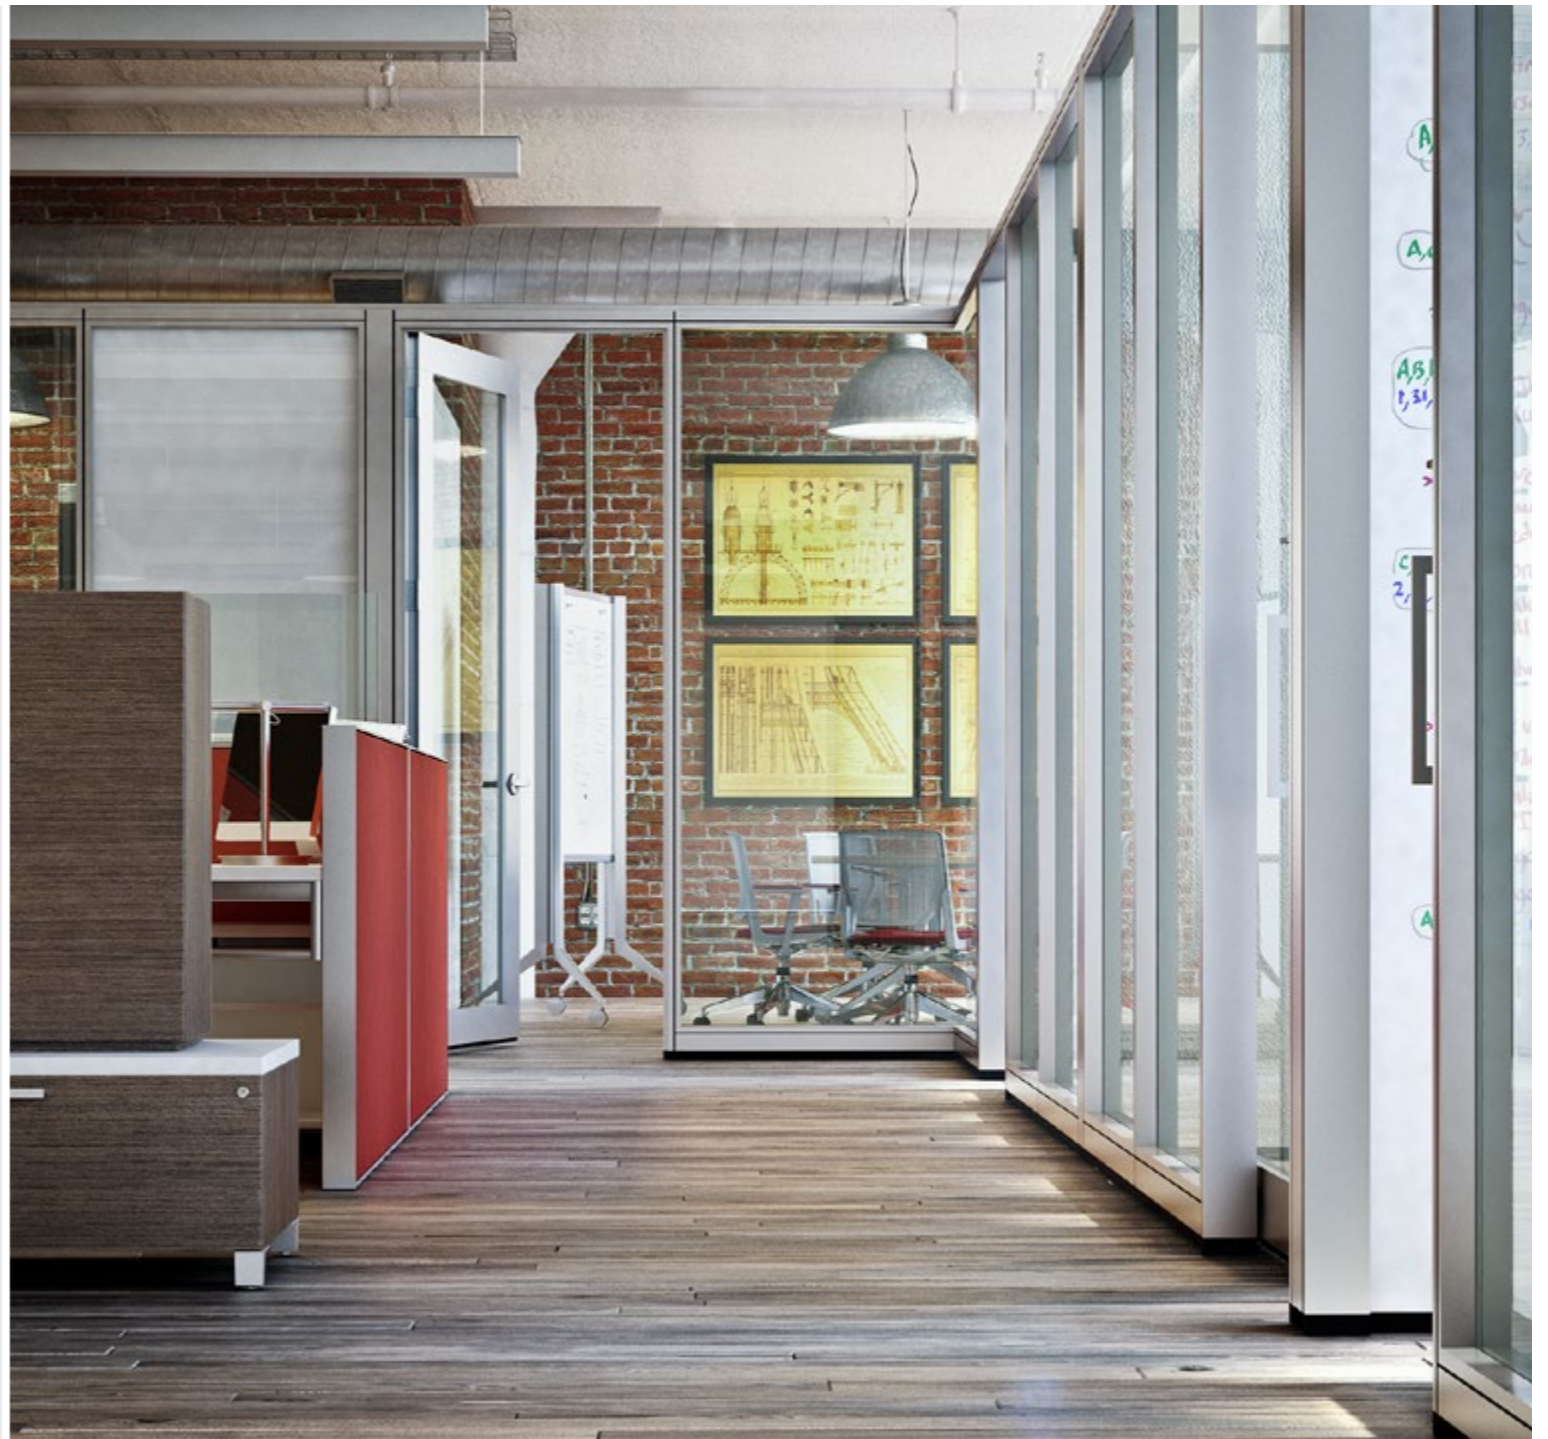

**HAWORTH**

## ENCLOSE

READY. SET. CHANGE.

- Factory-built panels reduce downtime and installation costs
- Panels and doors can be removed without disrupting the system
- Power and data are reconfigurable
- Walls can be reused to eliminate material waste
- Floor to ceiling (full-height), freestanding, and stack-on flexibility

OVERVIEW

BENEFITS

**SOLUTIONS**

EXPERIENCE

HAWORTH

## ENCLOSE

# EFFORTLESS CONNECTIONS

- Standard four-inch frame meshes with base building architecture
- Heights and widths can be tailored to any building dimension
- A kit of parts creates a seamless finish around bulkheads, HVAC, etc.

ENCLOSE FRAMELESS GLASS

Effortless combinations. Flexible applications. Gorgeous floor-to-ceiling walls. That's EFG. Made of frameless glass, these award-winning demountable walls provide a storefront option that can integrate perfectly with the rest of the Enclose system or stand on its own.

A 10-year warranty promises years of solid performance, and highly recyclable materials make them a responsible choice.

**OVERVIEW**

**BENEFITS**

**SOLUTIONS**

**EXPERIENCE**

**HAWORTH**

## ENCLOSE FRAMELESS GLASS

### SIMPLY BEAUTIFUL

- Simple, sophisticated design
- Lowest base profile in the industry
- Refined details (butt-jointed glass, polished aluminum corners)
- Choice of sliding, pivot, or butt-hinge doors
- Uses mechanical fasteners only at the slab to save time and money

OVERVIEW

BENEFITS

**SOLUTIONS**

EXPERIENCE

HAWORTH

## ENCLOSE FRAMELESS GLASS

### CLEARLY INSPIRED

- Endless configuration possibilities
- Create straight lines, variable angle corners, or faceted curves
- Stop and start wherever you want
- Integrate with standard Enclose or conventional construction

## EXPERIENCE

# HAWORTH HQ: HOLLAND, MI

### Product

Enclose and Enclose Frameless Glass

### Room Types

Private Offices, Conference Rooms, Touchdown Spaces, Space Division

### Client Goals

One Haworth Center was developed as a living example of adaptability, user focus, and sustainability. A chassis design was implemented, allowing the ultimate in flexibility. Nearly all employees have access to daylight and views, and the ratio of individual to group space has shifted to encourage greater collaboration.
