# X Series

Desks

Fluctuating business climates require organizations to adapt quickly and efficiently, while maintaining a consistent culture and brand experience. The most effective organizations are nimble, with work environments that flex and grow as needs change.

X Series® desks provide simple, cost-effective solutions for dynamic and diverse environments. Configure and reconfigure applications as needed for diverse workstyles and business needs. Strong and durable, X Series is a practical choice that helps organizations navigate change efficiently, while conveying culture and brand with a wide variety of options.

## Effectively Leverage Space

X Series streamlines space planning as an organization evolves. A variety of elements let you create workspaces that support people now and in the future. Because it performs equally well in open plans and private offices, X Series can be configured for your current space, then easily adapted to create different applications and designs in response to your changing business needs.

## Designed to Last

X Series is designed to flex and grow with your business over the long term. Applications can be tailored to express any organization's character with elements and finishes that can be mixed and matched to consistently support culture and brand. The patented box-in-box construction, rack-and-pinion lock system with dual-side lock bars, wear resistant finish, and rust inhibitor ensure strength and security for years to come.

### Design Choices

The X Series desk line includes desks, credenzas, returns, and bridges offered in a generous selection of finishes, materials, and hardware to consistently support the desired workplace aesthetic. X Series desks are complemented by X Series storage for a complete, cohesive solution that can be configured, reconfigured, and scaled as needed.

## **Aligning People and Space for Optimal Performance**

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
