Value Proposition

Why Anyway Connect?

- Simple and clean design to create the perfect meeting and conference space.
- Designed to leave a lasting impression with their clear shapes and contributing a touch of sophistication to any professional environment.
- Cost effective and dependable.
- Internationally available for multi-national customers who prefer to have similar product standards across their worldwide facilities.

HAWORTH

Clean and Versatile

We take pride in simplicity and clarity, intentionally keeping the range straightforward. The "Anyway Connect" tables are a testament to functional minimalism, providing a versatile solution for various meeting spaces. Whether it's a collaborative session or a formal conference, these tables seamlessly blend into any setting.

Ensure Dynamics

Built to endure the demands of dynamic workspaces, our tables boast high stability, ensuring a reliable foundation for your important meetings. The secret lies in the internal truss system that forms the frame, supporting the distinctive A-feet. This construction not only enhances stability but also contributes to the overall durability of the tables.

HAWORTH

Practical and durable

Available in two different heights:

- 74,5 cm
- 105,5 cm

Anyway Connect owns the perfect combination between a clean and elegant design, coupled with functionality and flexibility.

This combination allows it to adapt to various spaces and meet diverse needs.

Creative Freedom

Anyway Connect distinguishes itself in the market by offering a wide range of worktop finishes.

From high-quality melamine solutions to the sophistication of veneer finishes, and not to overlook the sleekness of Fenix worktops.

Creative Freedom

The wide range of options related to cables management and cable accessibility, associated with the compatibility of different electrification solutions, is another strong point of Anyway Connect.

The option for round corners is opened to the complete range.
