

Bong

by Cappellini

Giulio Cappellini | 2004

The Bong side table looks like a solid block of marble, but is made of fiberglass with a hollow core. This combination creates a lightweight side table with a luxurious look, perfect for lounges and waiting areas. Fibreglass varnished in matt finish in white, anthracite, red, orange, turquoise or sun yellow. Available also with a white Carrara faked-marble decoration, Volcanic lava or Floreal decorated.
