

Planes

LEED

Planes Contributions to LEED®

Minimize impact. Maximize investment. Planes™ is durable and adaptable so it will keep working for you through many years of change. Planes products may contribute to the individual prerequisites and credits of LEED. Because LEED is a holistic building rating system and sustainable design guideline, there is no such thing as LEED-certified products—only ways of using and applying products to support the criteria.

Planes contributes to the following LEED Certifications:

LEED 2009 for Commercial Interiors

LEED 2009 for New Construction

LEED 2009 for Existing Buildings

LEED 2009 for Core and Shell Development

HAWORTH®

Planes™ Contributions to LEED® 2009

Product Name: Planes System
LEED Rating System: LEED 2009 for Commercial Interiors

Materials & Resources

Credit 2	Construction Waste Management <i>Planes packing materials include cardboard, polyethylene film and wood, all of which are easily recycled in many markets.</i>	1-2 points
Credit 3.2	Materials Reuse --- Furniture and Furnishings <i>Planes products are designed to be easily moved, refurbished if desired, and reused, contributing to this point on future projects.</i>	1 point
Credit 4	Recycled Content <i>Planes products may contribute to this point as a typical installation contains 2% post-consumer and 80% pre-consumer recycled content.</i>	1-2 points
Credit 5	Regional Materials <i>Planes may contribute to this point depending on the project location. Planes is manufactured in and around Holland, Michigan.</i>	1-2 points
Credit 7	Certified Wood <i>Planes components can be specified with FSC certified wood veneers.</i>	1 point

Indoor Environmental Quality

Credit 3.2	Construction IAQ Management Plan --- Before Occupancy <i>Low-emitting Planes products reduce emissions during construction and flush-out.</i>	1 point
Credit 4.5	Low-Emitting Materials --- Systems Furniture and Seating <i>Planes is Greenguard certified.</i>	1 point

Innovation & Design Process

Credit 1	Innovation in Design <i>Exemplary performance points may be achieved when a project substantially exceeds a LEED-CI performance credit. For instance, an innovation point may be awarded for achieving 30% recycled content on a LEED-CI 2009 project. Planes can contribute to achieving this higher level of recycled content.</i>	1 point

Innovation in Design

Credit 1	Innovation Credit for Low Emitting Furniture <i>Low emitting furniture may be applied toward an innovation credit for LEED NC following the criteria of LEED-CI EQ Credit 4.5. Planes products are Greenguard certified as low emitting and may contribute to earning this innovation credit.</i>	1 point
