minimum of 30% post-consumer recovered fiber.

K700 | Castelli for Haworth

Over 25 years ago, this classic paperclip stool was brought to life. Its contours are both functional and distinct. The stool's tubular steel frame offers a clean design that adapts to applications that call for sturdy, impromptu seating. Available in three heights and two finishes.

Manufactured in the USA

K700

The stool is available in three heights: 18, 24, and 28 inches. All three heights are available with polished chrome finish. Frame construction for all is 1 1/2-inch O.D. tubular steel with the seat welded to the frame.

An upholstered seat cap cover is available on all K700 series stools. The cap includes sewn-in-place foam, slips over the seat, and is held in place by elastic banding sewn into the outer edge of the upholstery.

K700

Dimensions:	With Footrest	Without Footrest

W:	16.0 in	16.0 in

Haworth Design Studio, 1980

The Haworth Design Studio draws on the experience and knowledge of research and development teams from all over the world. We have internal Haworth teams providing their expertise in North America and Asia Pacific as well as Europe. Haworth is unique in offering this global perspective, as our teams from each region work together to create both global solutions and products that are localized for specific regional markets.

The European Haworth Design Studio is the union of Centro Studio Castelli, the Comforto Development Team, and Haworth's own research and development teams. The team prides itself on a long tradition of working in harmony with experienced designers to merge our knowledge and research with their innovation.

With designers, engineers, and product managers working together across three regions, the Haworth Design Studio is guaranteed to develop workspaces that meet the needs of users worldwide in form and function.
