

# BuzziBlinds

BuzziSpace | Alain Gilles | 2011

For privacy with a twist, BuzziBlinds freestanding room dividing screen is available in distinct profile shapes and with an optional V-cut feature in the material for a stronger architectural look. The series of five rotating acoustic blinds can be opened or closed to varying degrees to control visual and sound privacy. The panels are covered in BuzziFelt, with the option of an extra fabric layer to reduce and diffuse sound in social and work spaces.
