

M SERIES

PRODUCT CATEGORY: STORAGE

PRODUCT ENVIRONMENTAL DATA SHEET

SECTOR: ASIA PACIFIC

HAWORTH®

M Series storage is designed for elegant looks and clean aesthetic. It addresses all office needs with simple combinations of pedestal, lateral file, swing door and tambour door units. M Series recognizes the importance of having clean straight lines running across the storages at client site. The typical is based on a typical mobile pedestal file.

RECYCLED CONTENT

	Material Weight	Post-Consumer Recycled Content	Pre-Consumer Recycled Content
Steel	57.25 lbs (92.7%)	11.33 lbs	08.24 lbs
Plastic	01.20 lbs (1.9%)	00.00 lbs	00.00 lbs
Paper	00.66 lbs (1.1%)	00.00 lbs	00.00 lbs
Other	02.64 lbs (4.3%)	00.00 lbs	00.00 lbs
Total	61.75 lbs (100.0%)	11.33 lbs (18.36%)	08.24 lbs (13.35%)

CERTIFICATIONS

Good Environment Choice Australia certified
License Number HAW-2011

GREENGUARD GOLD certified
Certification #9847-410, 420

MATERIAL CHEMISTRY

We believe that our products should be safe for humans and the environment. That's why we are working diligently to identify and eliminate chemicals of concern in the materials we source. While we have identified more than 870 chemicals that we plan to eliminate from our products throughout the next 10 years, we have identified 56 chemicals that we plan to eliminate by 2015.

These include, among others, PVC, benzidine dyes, ozone depletors, hexavalent chromium, certain hazardous phthalates, and PBDE flame retardants. We are committed to achieving this goal and being transparent with our customers about our progress.

LIFE CYCLE ASSESMENT (LCA) SUMMARY

Life Cycle Assessments (LCAs) are one tool which allows us to enhance the triple bottom line of Haworth products by identifying high environmental impact stages within our products' lifecycles. Haworth is committed to better understanding and reducing the impacts of our products and operations on the natural world.

At Haworth, we are committed to looking beyond carbon footprint by taking a detailed inventory of our product's impacts through LCA, including human and ecosystem toxicity, land use and water quality. Over the past several years, Haworth has conducted over 95 product life cycle assessments globally. Results of the LCA studies provide value in the identification of cost savings, improvement of design and material evaluation, advancement of procurement and transportation decision making, new product development criteria, as well as ultimately reducing Haworth's impact on the environment through continuous improvement efforts.

END OF LIFE MANAGEMENT

	Material Weight	Recyclable Content
Steel	57.25 lbs (92.7%)	57.25 lbs
Plastic	01.20 lbs (1.9%)	0.00 lbs
Paper	00.66 lbs (1.1%)	0.00 lbs
Other	02.64 lbs (4.3%)	0.00 lbs
Total	61.75 lbs (100.0%)	57.25 lbs (92.7%)

Once a Haworth product reaches the end of its life, our product's end-of-life program ensures that customers have options (e.g., recycling, resale, refurbishment, and donation) to prevent it from being discarded into a landfill. To encourage recycling, we have published disassembly instructions for many of our products on the individual product pages. Our products have been intentionally built using highly-recyclable metals and plastics including steel, aluminum, polypropylene, and nylon.

We encourage our customers to contact us regarding end-of-life options in their region so that we can help them make the world a better place for future generations.

LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED)

Interior Design and Construction (ID+C)

MRC4: Recycled Content	M Series contains 18.55% post-consumer and 12.99% pre-consumer recycled content.	1-2 points
MRC5: Regional Materials	M Series is manufactured in Shanghai, China.	1-2 points
IEQc4.5: Low-emitting materials - Systems Furniture and Seating	M Series is GREENGUARD certified as low-emitting.	1 point

Building Design and Construction (BD+C)

MRC4: Recycled Content	M Series contains 18.55% post-consumer and 12.99% pre-consumer recycled content.	1-2 points
MRC5: Regional Materials	M Series is manufactured in Shanghai, China.	1-2 points

Existing Buildings: Operations and Maintenance (EB:OM)

MRC2: Sustainable Purchasing - Durable Goods	M Series contains 18.55% post-consumer and 12.99% pre-consumer recycled content.	1-2 points
--	--	------------

Core and Shell Development (CS)

MRC4: Recycled Content	M Series contains 18.55% post-consumer and 12.99% pre-consumer recycled content.	1-2 points
MRC5: Regional Materials	M Series is manufactured in Shanghai, China.	1-2 points
