

ASML

Shanghai, China

Case Study

ASML provides chipmakers with everything they need – hardware, software and services. It enables tech giants like Samsung and Intel to mass produce patterns on silicon, increase the value and lower the cost of a chip and tackle the world's toughest technological challenges.

For ASML's Shanghai office breakout spaces, Haworth xFriends CWTCH sofa systems offer a range of complementary soft-seating options to create strikingly elegant, flexible and sociable clusters for smart working.
