

Bosch

Bangalore, India

Case Study

In India, Bosch is a leading supplier of technology and services in the areas of Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. It's the company's largest development centre outside Germany for end-to-end engineering and technology solutions.

For its new conference and managing rooms, Haworth curated a look that reflected the brand's image resulting in a traditional and beautiful space to welcome guests and support staff.

HAT and Focus tables combine with Hi Pad Cappellini chairs and mesh Very task chairs for smart, versatile functionality and universal aesthetic appeal. In the boardroom, leather Very task chairs add an extra layer of comfort without compromising on performance.

Haworth xFriends Orbit side tables add streamlined efficiency and good looks when additional surfaces are required.
