Value proposition

HAWORTH

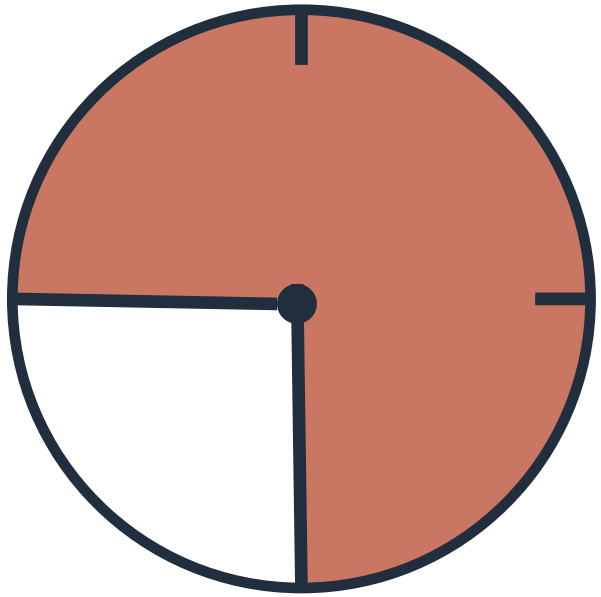
World of work is constantly changing

Office spaces have become more and more versatile to accommodate different tasks and behaviours of changing workforces.

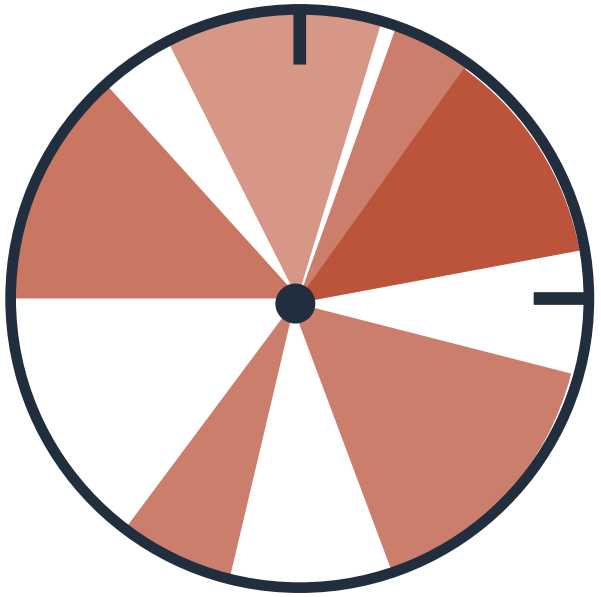
Flexible working practices have increased the number and variety of non-assigned workspaces and added complexity to workspace design.

Traditional vs Agile work

Agile workers don’t want to spend time adjusting the task chair they only spend a few hours in. The ideal work environment for tomorrow’s knowledge worker provides support where it's needed and freedom where it’s wanted.

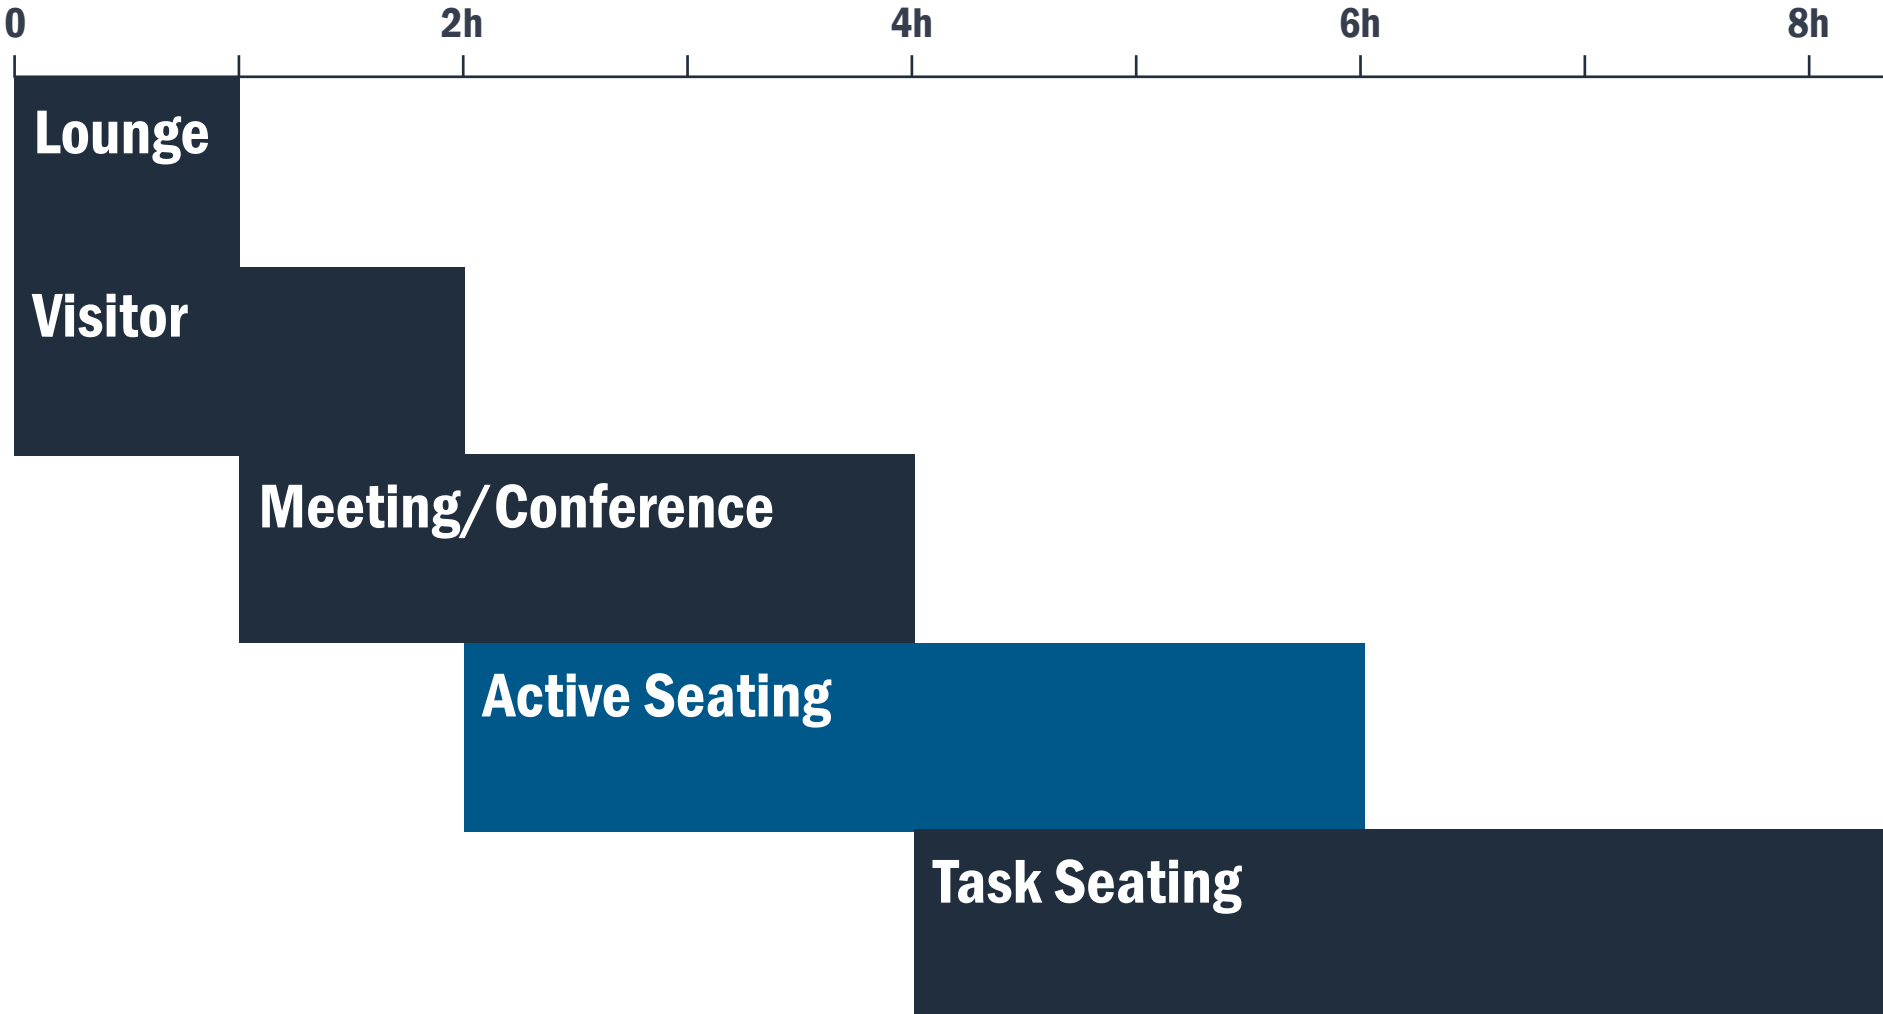


9 h Focus work
at assigned workplace



2h meeting
1,5 h conference call
20 min conversation over coffee
1,5 h silent focus work
2h workshop

Why Active Seating?



Why Nia?

Nia was conceived with the needs of an increasingly agile global workforce in mind:

Redefining work seating

Traditional task chairs contrast the increasingly residential-themed workplace aesthetic. Nia with its slim upholstered profile and concealed mechanisms finally create a chair that compliments this aesthetic without compromising performance

Freedom as wanted, support as needed

Nia's weight-activated mechanism and unique pivoting back accommodate and quickly adapt to users postures without complicated adjustment controls.

So many opportunities

Nia is designed to blend the style and comfort of lounge chair with the performance of a task chair, creating a solution for many different work settings, from meeting/conference rooms, focus work areas and collaboration zones.

HAWORTH

Key features

- Simple, intuitive adjustment
- Smart, unique patented mechanism
- Supports a wide variety of postures
- Designed by brodbeck design and Haworth Design Studio

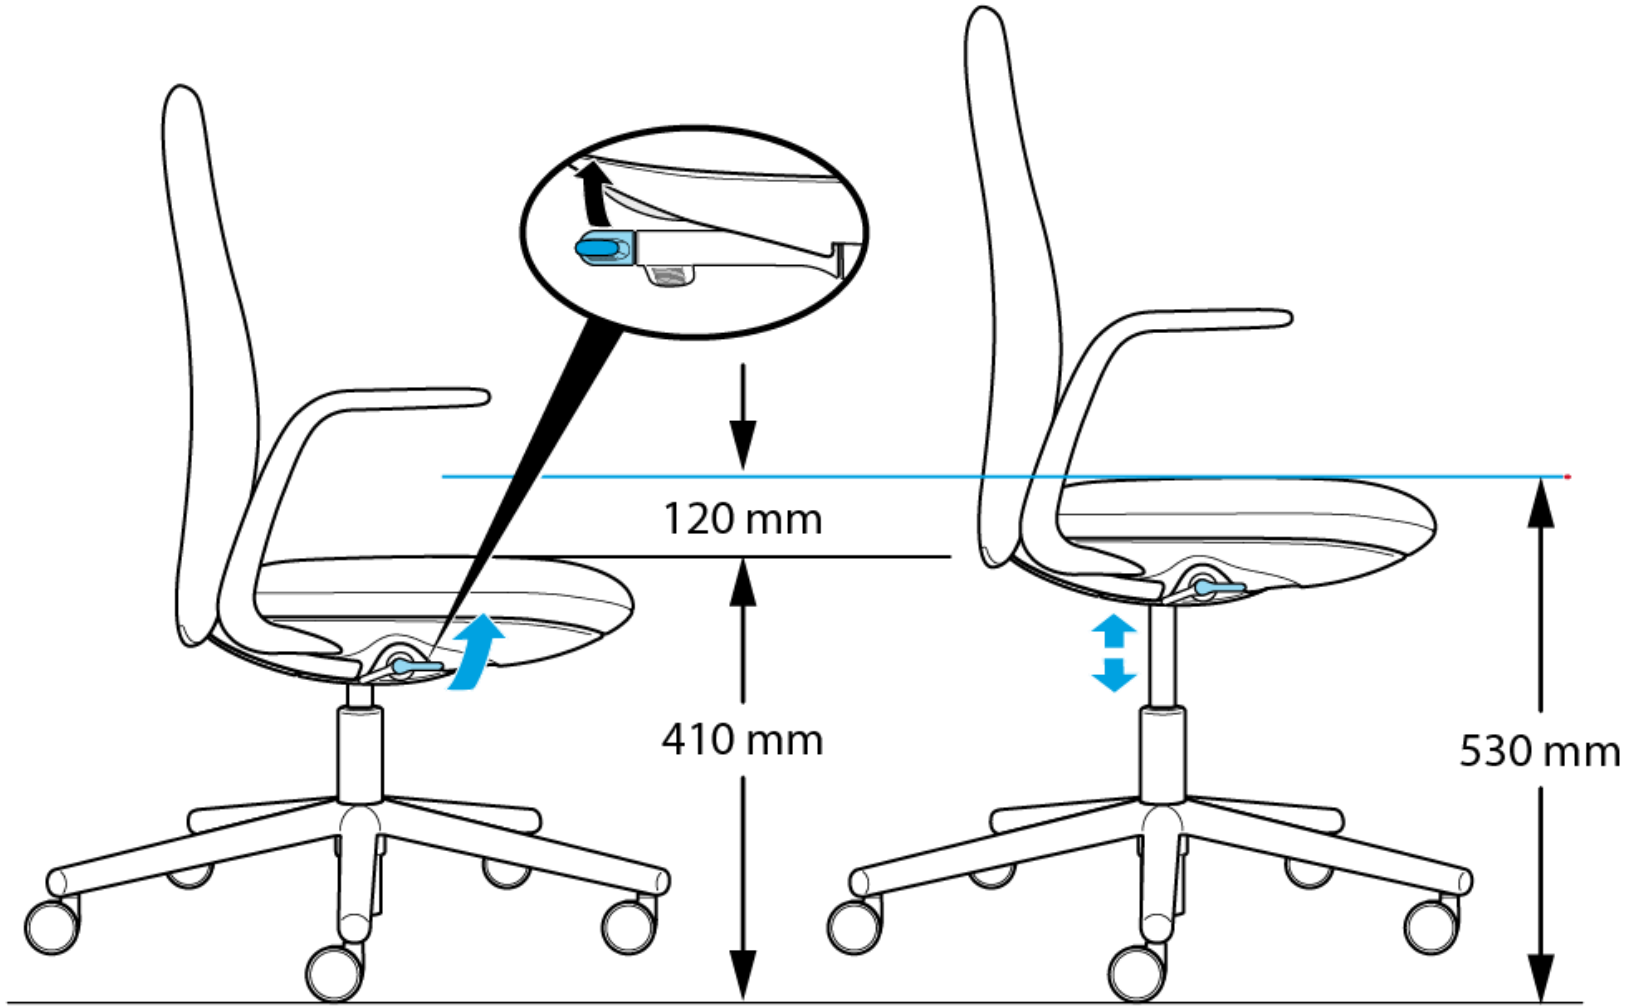
Functions

Seat height adjustment

Pneumatic seat height adjustment.

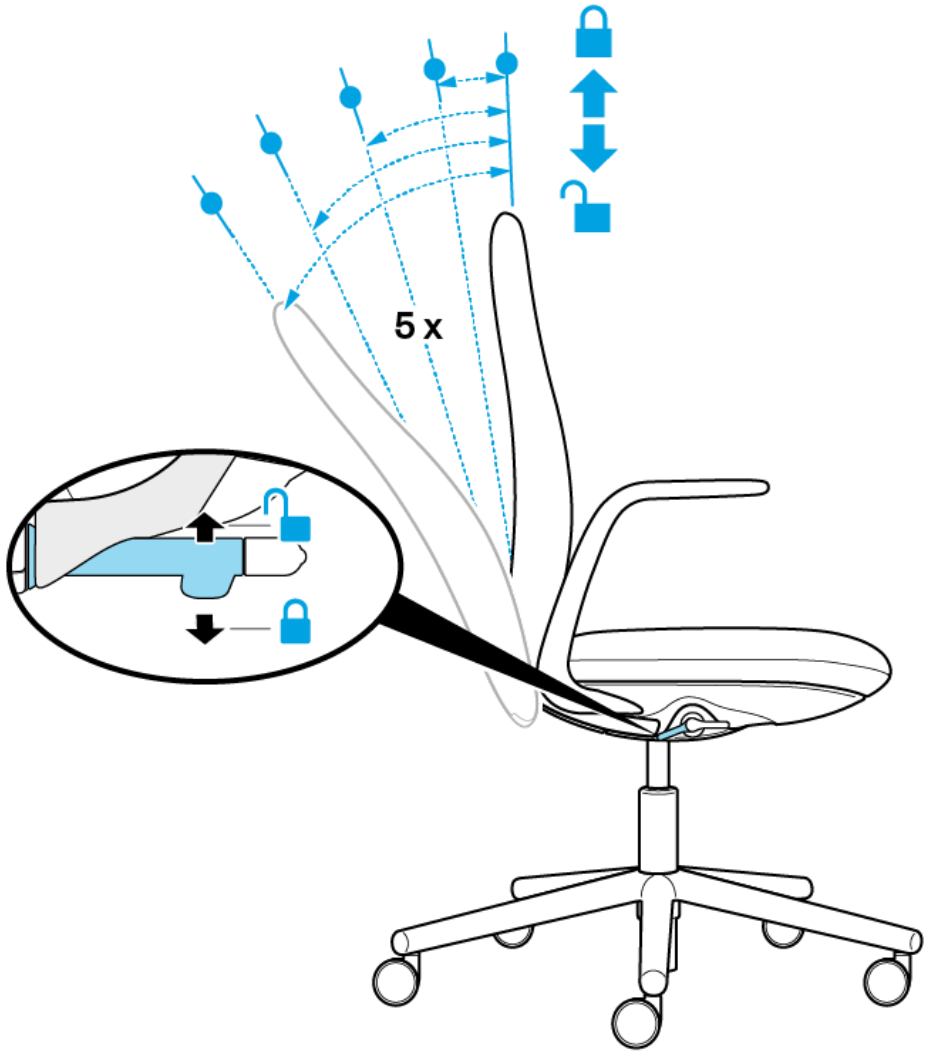
Seat height adjusts 120 mm from 410 mm to 530 mm on standard models

Seat height adjusts 220 mm from 530 mm to 750 mm on stools.



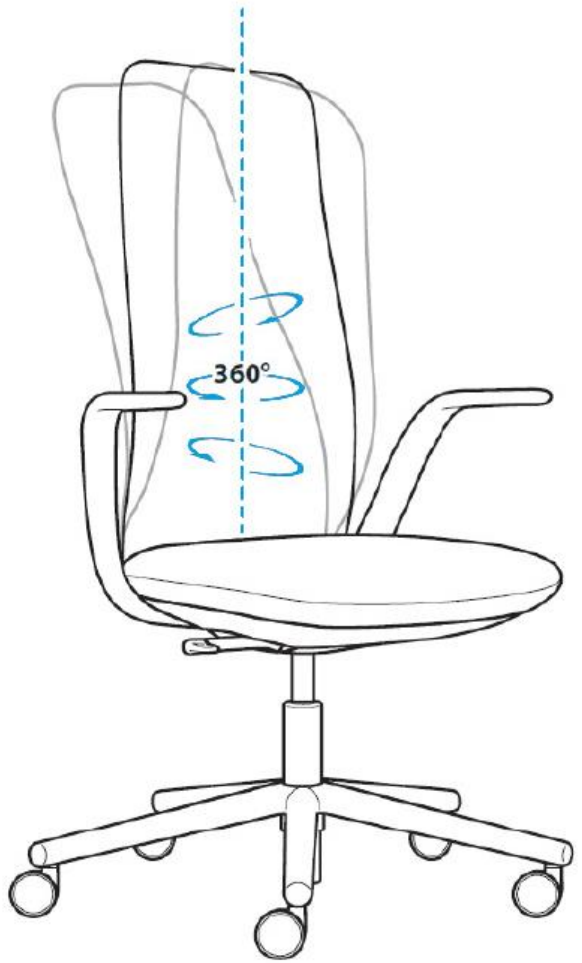
Back lock

Single position back lock to fix the backrest in the upright position. In total there are 5 back rest positions to fix.



Pivoting Mechanism (Optional)

Pivoting mechanism is self adjusting and moves in combination with the seating mechanism to create 360° movement.



Height Adjustable arms (Optional)

Height-adjustable armrests support the musculature of the neck and shoulders when it’s set properly. Grasp the armrest and slide the armrest up or down as needed.
