

# Universal Screens

Workplace screens represent an ideal solution; they are simple and quick to integrate, do not require any complex building procedures, and are open to individual configuration and sustained adaptation. The Universal Screens range can be used everywhere and combined simply with many Haworth desk systems. Not only does it include numerous fixing solutions for improved flexibility, but it also reduces the environmental footprint thanks to the selection of sustainable materials and processes.

## Features

- Light screen: Various technical solutions for screen attachment, requiring only one mount
- Framed screen: Strong, 35 mm wide, extruded aluminum frame with die-cast corner brackets. Upper part can be used to attach accessories
