Product Sheet

YOURPLACE PERSONAL. UNIQUE. INSPIRING.

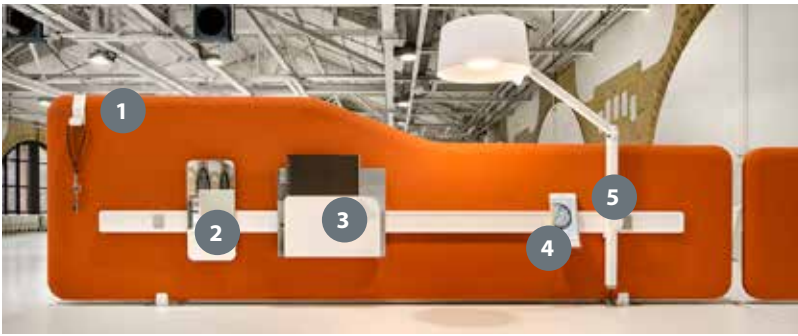

CHOOSE HOW YOU WORK, ONE TASK AT A TIME.

Today's technology enables us to choose how and where we work: at home, while travelling, in a café, or at the office. However within the confines of a traditional office, our options for how we work often disappear or, at best, are limited. YourPlace challenges this paradigm by creating a literal landscape within the office that offers individuals a diverse choice of settings to suit their tasks or mood.

A holistic system of individual settings, YourPlace modules can be mixed and matched to create a number of zones within an open office plan. These zones can accommodate all the many different requirements set by collaborative or individual work within one's personal environment: presentations to small groups, informal meetings, discussions on a sofa or at a high table, or quiet reflection.

Designed by Stefan Brodbeck for Haworth, YourPlace reflects the desire for a different type of workplace - one that emphasises and supports **personal identity** and **unique ways of work**, all in a more **inspiring atmosphere**.

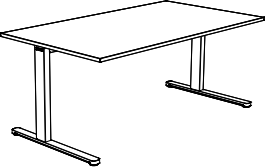

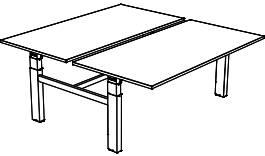

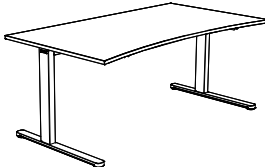

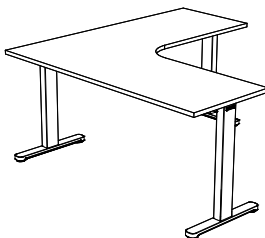

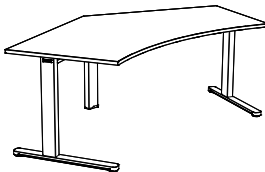

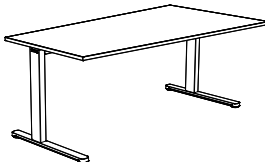

"THE UNDERLYING IDEA OF YOURPLACE IS SIMPLE: DESIGN A LANDSCAPE WITHIN THE WORK ENVIRONMENT THAT OFFERS A RANGE OF PERSONAL OPTIONS WHILE CREATING AN INSPIRING AND INVITING ATMOSPHERE." - DESIGNER STEFAN BRODBECK

ATTENTION TO DETAIL Desktop accessories (1-4) add a personal touch to your workspace while the ATL light (5) features a colour-changing lampshade that can communicate one's mood, availability, or activity. The light can also be used as a way to define a team space or shared desk occupancy status.

A desire for atmosphere and intimacy has become an important trend in office design, where domestic touches can create a sense of place and encourage people to linger. YourPlace supports this trend through its design and the use of tactile finishes and materials: warm colour palettes, natural materials, and a range of premium textiles. Its diversity of shapes and colours, all of which stimulate the senses in different ways, incites an emotional response and creates visual impact. In a culturally diverse world where we have choices at every turn, YourPlace brings this freedom of choice to the final frontier - the office.
