HAWORTH

Your New Office Landscape

An organic system is designed to embrace change, ensuring that the physical space, technology, and policy remain in alignment with the goals of the organization.

YourPlace creates a literal landscape that offers individuals a diverse choice of settings to suit their tasks or mood making it easy to customize the workspace that fits your current project or mood.

HAWORTH

About the Designer Stefan Brodbeck

People are the foundation of Brodbeck design's philosophy. Their interest lies in the ultimate end-users of their products and services. How do these people think, feel and behave - both today and in the future?

The studio's aim is to align products and systems to **human needs and expectations**, and to tie these needs with well-designed, functional solutions.

"The underlying idea for YourPlace is simple: create a work environment which offers a wide range of useful options with an inspiring and friendly atmosphere."

2015 IF Design Award:
Office Furniture Landscape

HAWORTH

**Personal. Unique.
Inspiring.**

The YourPlace landscape reflects the desire for a different type of workplace: one that supports personal identity and unique ways of work, all in a more inspiring atmosphere.

HAWORTH

Design Aesthetic

Architectural and yet emotive, YourPlace is designed to respond to the growing desire for a clean, modern office that still inspires.

HAWORTH

Feel at 'Home' at Work

A desire for atmosphere has become an important trend in office design, where domestic touches create intimacy and encourage people to linger.

HAWORTH

However You Need to Work

YourPlace accommodates all the many different requirements set by collaborative or individual work within one's personal environment.

HAWORTH

Evoked a Sense of Place

Thanks to its light design and color palette, YourPlace incites an emotional response and creates visual impact.

Compatible with Drift 32 screens.

HAWORTH

Timeless Design Language

Consistency in leg design across the entire range ensures there is a clean, unobstructive design language.

Key Features
