

Toulouse

Toulouse is a scalable, modular system that delivers an evolving sofa landscape. The system is built around the notion of layered privacy and comprises four customisable modules, plus supplementary room dividers. All affix to a universal slim-line metal base frame for easy reconfiguration.

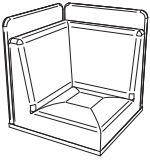

Design features

- A clever functional design for lounging, a casual meeting or private work.
- Upholster modules from a choice of fabrics and leathers.
- Order modules in different colours to create a vibrant sofa landscape.
- Treat acoustic challenges and/or divide large spaces with Toulouse's range of dividers.
- All modules affix to a universal base frame, so reconfigure Toulouse to match changing needs.
