

# Cega

boss  
design

Totally symmetrical in form and boasting advanced acoustic qualities, Cega comprises of a profile cut tubular construction that features advanced internal heat welded vertical fluted upholstery.

Its contoured design has been intentionally developed to reduce peripheral vision and external noise, whilst the open top structure allows for the correct level of ambient light to pass through the system.

**Features**

- Swivel base unit
- Fixed lumbar cushion
- Contoured design to reduce peripheral vision for maximum privacy
- Open top structure allows access for ambient light to pass through
- Acoustic qualities
- Easy to relocate
