MF MDF

Melamine Faced Medium-density fibreboard (MDF) provides many of the advantages of MDF with a decorative and hard wearing surface layer. The melamine has a subtle burnished surface detail which is slightly textured.

Oak or Black American Walnut Veneer

Veneered Medium-density fibreboard (MDF). At Boss Design we use American Black Walnut and European Oak decorative veneers to give your table top that natural finish. The table top edge is finished with a matching veneered edge band.

Resopal Laminates

Resopal laminates are resistant to impact, scratching and abrasion, it is resistant to heat and light, resistant to stains, easy to clean and to disinfect, resistant to water, steam, solvents and largely to chemicals.

Forbo Desktop Lino

The linoleum collection consists of several elegant colours that add a distinctive touch to our table tops. Forbo desktop lino has a water based finish that prevents scratching and staining, while at the same time ensuring that the surface is warm to the touch with a nice matte finish.

Fenix

Fenix NTM (Nanotech Matt Material) involves the use of nano-technology to produce a very pleasing soft touch surface that boasts low light reflectivity alongside impressive anti fingerprint, scratch resistance and rub resistant credentials.

Should you wish to discuss an alternative finish not offered throughout our portfolio, please contact your local sales representative or our internal sales team on 01384 455 570.
