

The image shows a large, bright room with a high ceiling and large windows in the background. The windows have horizontal blinds, and light is streaming in, creating a pattern of light and shadow on the floor and chairs. In the foreground and middle ground, there are several rows of chairs. Most are white, but there are a few teal and lime green chairs interspersed. The chairs have a simple, modern design with a curved back and a metal frame. The floor is a light-colored, polished material.

fox

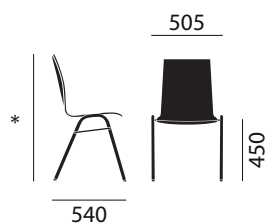

brunner fox | Roland Schmidt | LSS designer

One range that contributes to successful event management: Maximum versatility makes fox, the ideal choice for large capacity areas and do offer all important functional features that are required for this kind of installation. At the same time the ranges always offer a perfect visual appearance – due to the various configuration options it is able to adapt to every room and environment.
