

BuzziFalls

BuzziSpace | Sas Adriaenssens | 2014

A room-dividing solution that adds visual interest, BuzziFalls sound-absorbing panels are available in a range of organic and geometric patterns precision cut from BuzziFelt. The sturdy rail system supports movable room dividers that easily shift from private to public space. Consider creating a sliding-door effect by mounting parallel tracks. BuzziFalls panels can be attached directly to the surface of the track rail or suspended from the ceiling.
