

BuzziFrontDesk

BuzziSpace | BuzziSpace Studio | 2013

L'écran de confidentialité BuzziFrontDesk est une solution simple pour masquer l'encombrement d'un bureau et protéger des regards des documents sensibles ou un écran d'ordinateur. Monté sur le bureau, BuzziFrontDesk se déplace avec la surface de travail en cas de réglage en hauteur. La texture de son revêtement en feutre BuzziFelt s'harmonise parfaitement aux environnements et apporte de la douceur aux espaces.
