

BuzziHood

BuzziSpace | Alian Gilles | 2010

Reminiscent of a comforting sweatshirt, BuzziHood is an acoustic wall-mounted phone booth. It creates a nook for instant privacy in open spaces for taking or making calls in noisy surroundings. BuzziHood can be installed anywhere, adding a graphic and architectural appearance. Choose between flat or three-dimensional in a range of fabric colors. BuzziHood also comes with an optional tablet, making it easier to take notes during calls.
