

# Superlight

Pablo Designs® | Peter Stathis and Matthew Boyko | 2017

Superlight has a precise yet playful structure defying gravity with an appearance of near weightlessness. The lamp achieves fluid, sweeping movement in every direction with a full 3-axis range of motion providing warm, glare-free LED light exactly where you need it. Superlight's ergonomically positioned switch allows for single-handed use with effortless (0-100%) light level adjustment. The lens also rotates 90 degrees for calibrated light adjustment.
