Haworth Cardigan Lounge™

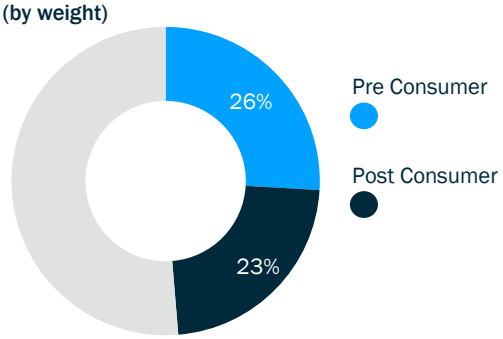
Guest seating

The Haworth Cardigan Lounge brings a modern, light and airy design to any work space, in the office or at home, giving you permission to lounge in the most professional way possible. It is a comfortable, form-fitting homage to a knit cardigan – dressing you and your space in the colours of the season.

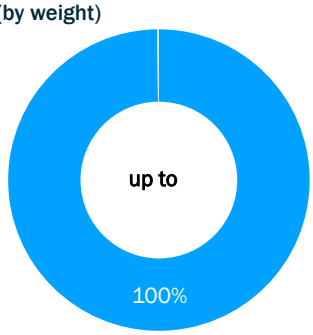
Haworth Cardigan Lounge is manufactured at an ISO 9001 and ISO 14001 certified facility in Portugal.that met Haworth's zero-waste-to-landfill criteria in 2025, with <10% of waste by weight sent to landfill. This product is designed for disassembly and has replaceable wearing parts. At the end of its useful life, reuse and other second-life options should be considered before disposal.

Material	Material Weight	
Steel	11,1 kg	(72%)
Foam	2,1 kg	(13%)
Plastic	1,2 kg	(8%)
Fabric	1,0 kg	(6%)
Total	**15,3 kg**	**(100%)**

Recycled Content (by weight)



Recyclability (by weight)



In an effort to support human health and environmental protection, we work to identify and eliminate chemicals of concern in the materials we source. This product is assessed for compliance with applicable restrictions under REACH, RoHS and the EU POPs Regulation, where relevant.

Haworth Cardigan Lounge material inventory:
Foam with 100% REDcert-certified mass balance content.
No intentionally added PVC.
No intentionally added Pb, Hg or Cr(VI).
No CFCs used as foam-blowing agents.
No adhesives used in product assembly.
Metal parts are powder coated.
Certified fabrics available (e.g., EU Ecolabel, OekoTex Standard 100).

Recycled content and recyclability calculations are based on product configuration: A00000053. Recycled content data is provided by suppliers (preferably) or industry averages. Actual recycled content may vary due to market conditions or manufacturing processes. Recyclability data is based on technical recyclability of materials. Actual recycling depends on disassembly and local infrastructure.

Certifications

EPD International verified
Declaration # EPD-IES-0031521

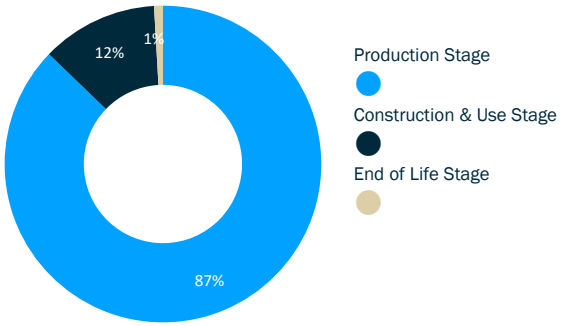
Indoor Advantage Gold certified
Certification # SCS-IAQ-09627

European LEVEL 3 certified
Certification # SCS-LVL-05881

Life Cycle Assessment (LCA)

Global warming potential, excl biogenic	126,5 kg CO_2 eq.
Acidification	0,42 kg SO_2 eq.
Eutrophication	0,033 kg N eq.
Smog	6,7 kg O_3 eq.
Ozone depletion	2,50E-09 kg CFC11 eq.

Impact by Life Cycle Stage*



*Impact assessment method used is TRACI 2.1.

Potential Sustainable Building Contributions

Haworth products can contribute toward achieving sustainable building credits. Two of the most commonly used standards in the commercial furnishings industry are referenced here:

Leadership in Energy & Environmental Design (LEED®) v4:

EQ Credit: Low-Emitting Materials
Product may contribute through Indoor Advantage Gold certification, where applicable.

MR Credit: Building Product Disclosure and Optimization
Material Ingredients: Option 1
Material ingredient assessment available through European LEVEL.
Environmental Product Declarations: Option 1
Third-party verified product-specific EPD available.

Sourcing of Raw Materials
Recycled Content: Recycled materials disclosed in Material Section on p.1.

For potential contribution to additional ergonomic and design features, please reach out to your local Haworth representative.

WELL Building Standard® v2:

Material Concept: X08 Hazardous Material Reduction
Products screened for restricted phthalates in applicable furniture components. Upholstered components are screened for

Material Concept: X10 Volatile Compound Reduction
Part 1: Components screened for halogenated flame retardants.
Part 2: Products screened for presence of restricted phthalates.
Part 3: Product may contribute through Indoor Advantage Gold certification, where applicable.

Material Concept: X11 Long-Term Emission Control
Part 1: Product may contribute through Indoor Advantage Gold certification, where applicable.

Material Concept: X14 Material Transparency
Material ingredient assessment available through European LEVEL.
