

Be_Hold Smart

With the rise of hybrid work, workplace storage must be reimagined. Be_Hold Smart is easy to book with a plug-and-play design that's simple to install, use and maintain. Be_Hold Smart supports teams that share materials, freeing up storage space for hybrid workspaces as well as individuals to secure their belongings. With a remote management app and no keys to lose, Be_Hold Smart streamlines locker management. Available in a wide range of colours to complement any interior.

Features

- Easy to plan, use and maintain
- Support hybrid work
- Integration possible into any smart building app
- Accommodate different user types
