Case study

HAWORTH®

Client

Hachette Livre – Malakoff (Paris area)

Hachette Livre is part of the Lagardere Group. They employ 7,500 people worldwide and rank 9th in the world among the major publishing conglomerates with 2.1 billion Euros in annual sales.

Challenge

As part of the reorganisation of its workspaces, Hachette Livre has moved half of its management services to a 10,000m2 building with HQE, BBC Effinergie certification (similar to LEED) in Malakoff near Paris.

The main challenge of the project was the storage solution. To meet our customer's requirements, we created 270 special bookcases, with washed oak finish. In addition, each workstation has its own sliding door storage unit, which is also used as a return desktop. The third level screens offer four rails for storage accessories. We also furnished three meeting rooms with 18-seat Audience tables and 20 others with chrome legged Epure tables. These feature special outlets that permit direct access to the cable trays from either side.

The second phase of the project will involve moving a further 300 employees.

Application

380 workstations
270 special bookcases
1,000 Metal filing storage units
Meeting rooms

Products

Special- Epure workstations
Special – melamine bookcases
Vallis 2 metal cupboards
Audience tables
Epure tables
Very Task
System 59

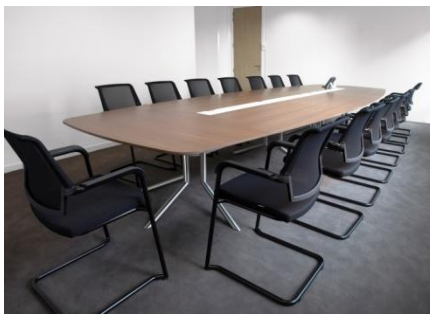

Partner

Mobilitis, space planner

Date of Installation

February –March 2012
