

## Bandas Space

GAN | Patricia Urquiola | 2014

Bandas Space is a new take on modularity, letting you reconfigure your space as often as you like. When paired with Bandas Space runners, these seating elements give the impression that the furniture flows right onto the floor. Because Bandas Space is handcrafted, these pieces are as unique as the women who make them. Durable and beautiful, the soft, textured materials bring a welcoming warmth to social spaces with their patterns of neutral tones and pops of color.
