Acoustic Pod

HushFree.M acoustic pod is an ideal alternative to traditional conference rooms when small group collaboration happens—virtually or in person. Acoustic properties provide speech level reduction to ensure the privacy of conversations inside and minimize noise from outside. Customize the interior with furniture to offer variety and choice to suit people’s needs at work.

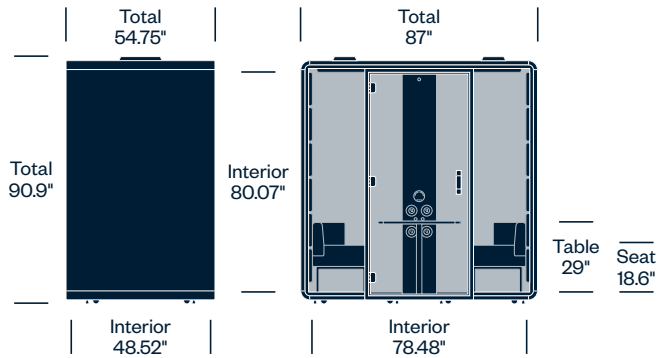

Features

- Acoustic design with:
 - Exterior constructed of 1.5", 3-layer honeycomb board with thermally fused laminate (TFL) finish and zero-joint laser edge technology
 - Laminated 0.19"-thick acoustic safety glass panels and door with an acoustic seal
 - Interior LDF (HDF) 0.11"-thick panels, covered in polyurethane foam and upholstered
 - Commercial-grade carpeted floor
- HushAssistant touchscreen module regulates lighting, ventilation, and room reservation
- Presence-activated ventilation and LED lighting system runs only when pod is in use
- Power modules with standard outlet and ports for USB-A, USB-C, and ethernet

Certifications

- Meets IBC Requirements for Seismic Design of Nonstructural Components and Systems
