Side & Lounge Seating

Newood seating creates a successful harmony of advanced craftsmanship and manufacturing excellence. The design is a study in detail, combining the past and present in a contemporary reinterpretation of a classic Windsor-style chair. The solid curved-wood backrest on each chair and stool provides a pleasing tactile experience and an expression of genuine beauty. A fixed seat pad with a variety of fabric, leather, and faux leather upholstery options may be added for enhanced comfort and design flexibility.

Features

- The Newood collection includes side chairs, as well as lower, slightly reclined lounge chairs, stools, and a trolley cart
- Stools are available in two heights with a satin-finished stainless-steel footrest
- All chairs and stools have a sturdy solid ash frame
- Seats for both chairs and stools are beech plywood with ash veneer stained to match the structure color, or padded with a fixed cover upholstered in fabric, leather, or faux leather
- Side chairs stack four high, or up to 12-high on a trolley cart; lounge chairs and stools do not stack
- Trolley cart frame is padded on top to protect stacked chairs from dings and scratches

Certifications

- Side chair and stools meet ANSI/BIFMA X5.1 Standard for Office Seating
- Lounge chair meets ANSI/BIFMA X5.4 Standard for Public and Lounge Seating
