Bookcase

HAWORTH collection

Cloud Designed by Ronan and Erwan Bouroullec

Cloud storage is composed of double-faced modules that can be stacked and configured in various organic shapes and sizes to suit your need. The light-hearted design is ideal for libraries and lounges. Cloud can subtly divide space while creating unique visual interest.

Features

- Round modules made of rotationally molded plastic
- Shelves accessible from both sides; can also be used against a wall
- Modular bookcases connect using white metal clips (included with each unit)
