

# Bay™

by Haworth

Castelli Design Studio | 2011

Bright and lively, yet nimble, the Bay table is refined to its very essence. Its simple lines project strength and confidence in an unexpected manner. Polished aluminum legs lighten and lift the design, complemented by a square, rectangular, elliptical, or round top in available in wood veneer or contemporary glass that you can write on. It's the perfect addition to informal conference areas and cafés.

**HAWORTH® Collection**
