LX Wall Arm ergotron®

Monitor Arm

The LX Wall Monitor Arm gives you the flexibility to position a monitor right where you need it. The unparalleled range of motion and smooth, easy adjustability offer superior ergonomic comfort and enhanced productivity. Sleek and streamlined, the arm attaches to sturdy vertical surfaces and folds away when not in use, making it ideal for high-traffic areas where space is limited.

A pioneer in ergonomic solutions for caregivers, our partner Ergotron has nearly 40 years of experience enhancing workflows to help health professionals thrive and drive positive patient experiences.

Features

- Extend screen up to 25" (635 mm) away from the wall; optional extension arm increases range to 34" (864 mm)
- Height adjusts 13" (330 mm) to meet the needs of more than nine out of 10 adults and offer ergonomic support for bifocals wearers
- Provides 360° of panoramic range for screen sharing, 360° of rotation, 70° of upward tilt, and 5° of downward tilt
- Patented Constant Force™ Technology ensures smooth, effortless adjustments
- Easily folds back over the base into a retracted position to save space when not in use
- Cable management system hides cords under the arm to keep them out of the way
- Base includes theft-deterrent anchor holes for cable locks
- Includes fasteners for attachment to wood studs or concrete surfaces
