# HAWORTH

As workplaces prioritize well-being and diverse workstyles, the demand for personalized, functional, and modern workstation solutions is increasing. Gallery panel accessories meet this need with products that enhance and complement gallery panels, incorporating visually appealing and versatile elements to elevate the workstation experience.

**Employee Engagement: People seek meaningful spaces that support purposeful work.**

Organizations that foster connections and create meaningful work environments can retain top talent, especially among younger generations.

**Workstyles: Workers desire a variety of work settings that support their activities throughout the day.**

Workers thrive in environments that encourage innovation and non-routine tasks, and they seek autonomy, efficiency, and varied workspaces. Prioritizing these aspects enhances engagement and retention by supporting creativity and well-being.

**Flexibility/Adaptability: Organizations are challenged to keep operating costs down.**

Organizations seeking to make real estate investments more efficient require smart, multi-use, and agile products that improve efficiency while supporting the diverse ways people work.

Gallery panel accessories provide a range of options designed to enhance the aesthetic and functionality of gallery panel workstations. Crafted to seamlessly integrate with existing and future gallery panels, these accessories offer a blend of form and function.

Whether organizations seek to layer visual interest, create an architectural feel, or introduce a touch of softness, these accessories help create spaces that reflect the style and needs of individuals and organizations. By elevating the functional aspects of a workspace, these additions transform workspaces into more efficient and inspiring environments.

## Elegance & Utility

Gallery panel accessories address the evolving needs of modern workplaces by offering solutions that blend form and function. As employees desire workspaces that reflect and support their personal style, these accessories offer ways to enhance the aesthetic and practical aspects of gallery panel workstations.

- Incorporate visually appealing and practical elements
- Enhance workspace functionality with tackability and writability
- Offer personalization opportunities, making spaces more conducive to productivity and collaboration

## Your Space, Your Signature

Gallery panel accessories enhance both the look and performance of workstations, supporting creativity, comfort, and productivity. They allow employees to customize their environments, catering to diverse workstyles and needs, whether for focused, private areas or open, collaborative spaces. Gallery panel accessories come in two categories: face mount accessories and top mount accessories.

- Face mount accessories can be mounted on the face of a gallery panel or to a structural wall
- Top mount accessories offer customization, space division, and privacy

## Retrofit Ready, Future Focused

Gallery panel accessories enhance workstation functionality and aesthetics, integrating with existing and future products. They promote efficient space use, ensure effective workstations, and adapt to future needs.

- Integrate with existing and future products
- Ensure workstations remain effective and inspiring
- Reconfigure to meet evolving workplace demands

By providing the tools to create varied and adaptable work settings, gallery panel accessories support creativity, comfort, and productivity, ensuring that every employee can find a workspace that suits their needs and enhances their well-being.

## Face Mount Accessories

- Compose® Echo tackboard
  - Rounded corners offer a more cozy, intimate feel
