

HAWORTH

**BUILD**/WITHOUT LIMITS

## MANAGING CHANGE

As the world changes, leaders focus on what's next.

Haworth Architectural Products empower you to respond and adapt to change with a sense of freedom.

Creative freedom, with a diverse offering of modular, freestanding, and glass options.

Spatial freedom, with solutions that can flex and respond as needs change.

And financial freedom because investments made now will last for years to come.

# EXPECT MORE

You need more. More performance and value. A more sustainable solution. A vision and a commitment to your success. With Haworth Architectural Products, you can expect more.

### Adaptability

- Wide range of privacy and acoustic solutions
- Freestanding or integrated with building infrastructure
- Ease of modification or reconfiguration

### Acoustics

- Options provide visual and/or acoustic privacy
- Key ingredient in a comprehensive acoustic strategy
- STC contributes to an effective Privacy Index

### Reliability

- Longest producing wall manufacturer in North America
- Manufactured architecture is consistent job-to-job
- Dependable and consistent manufactured solutions
- Engineered to meet precise specifications
- Industry leading 10 year warranty for manufactured product

Manufactured architecture is more cost-effective and depreciable. Shorter project timelines reduce construction costs, lower labor expenses, and minimize disruption.

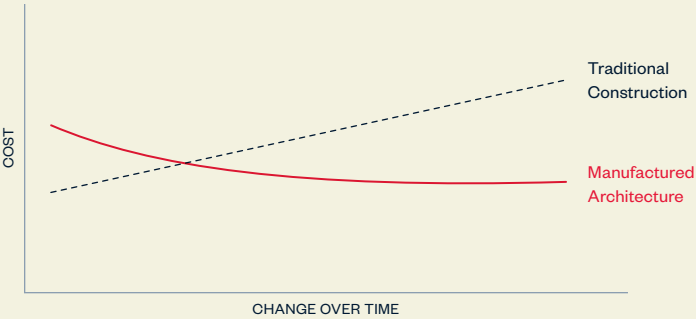

### Total Cost of Ownership

- Reduced construction time lowers costs, including labor
- Reusable product lowers the cost of future change
- Faster reconfiguration saves time and money
- Lowered occupant disruption and transition expenses
- Produces less waste

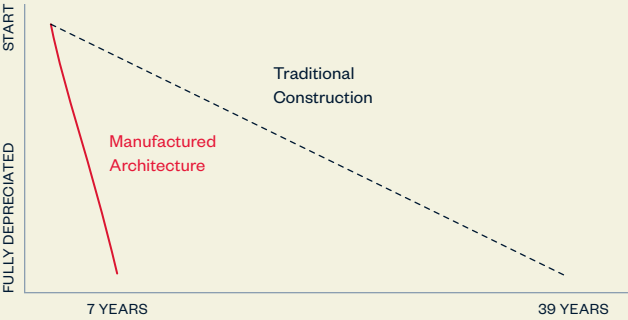

### Better Cash Management Options

- Accelerated depreciation to reduce tax liability (US)
- Financing options preserve cash for other investments
- Cover 100% at the lowest cost with flexible payment structures

Cost of owning manufactured architecture decreases over time

Tax advantage of manufactured architecture depreciating more quickly than traditional construction

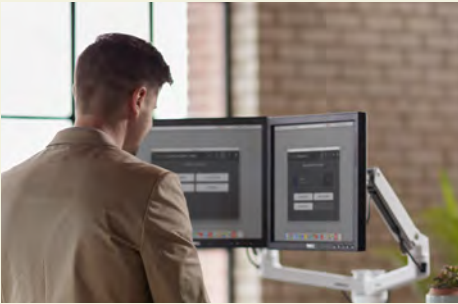

The Haworth Architectural Solutions team is where you need them—on call, online, on site. Our dedicated network covers North America.

**Certified Partners**

- North American network of specialized dealers
- Certified installation network for smooth project integration
- Expertise throughout the project process

**Solutions Team**

- Dedicated Architectural Solutions team supports all project phases
- Expert consultation professionals that cover all of North America, bringing over 210 combined years of experience
- Amplify local market resources with expertise where required

**Propriety Visualization Technology**

- Customized visualization and design tool
- Real-time collaboration
- Seamless from design to order

Building on Haworth’s 30-year tradition of sustainability, we are committed to reaching net-zero GHG emissions across our entire value chain by 2050 – in line with the Paris Climate Agreement.

**Lower Environmental Impact**

- Construction accounts for 36% of global energy usage and 39% of global energy-related carbon emissions
- 600 million tons of construction and demolition debris in North American landfills will double by 2025
- Modular construction uses less energy, reduces the amount of construction debris in a landfill, requires less transport, and reduces demolition

**Haworth’s Longstanding Commitment**

- Corporate sustainability focus for more than 30 years
- Made in an ISO 14001 certified, zero waste to landfill facility
- On-site recycling center supports our take back program
- BIFMA level 3 certified, the highest level of achievement
- Transparent reporting through Declare labels

# DYNAMIC BY DESIGN

From facilities to the workplace and brand to culture, Haworth helps organizations manage change.

TYPE: NEW CONSTRUCTION  
INDUSTRY: FINANCE  
SIZE: 12,500 GSF / 10,800 RSF  
OCCUPANTS: 72

**Challenge**

- Fast-paced investment management firm
- Relocate corporate headquarters to a major urban center
- One million square feet across 15 floors
- Emphasis on a high-change environment and maximizing acoustic performance

**Opportunity**

- Leased space that is smart, secure, and resilient
- New construction high-rise
- Highly adaptable space
- Certified LEED Gold
- Advanced technology, business continuity systems
- 24/7 on-site command center

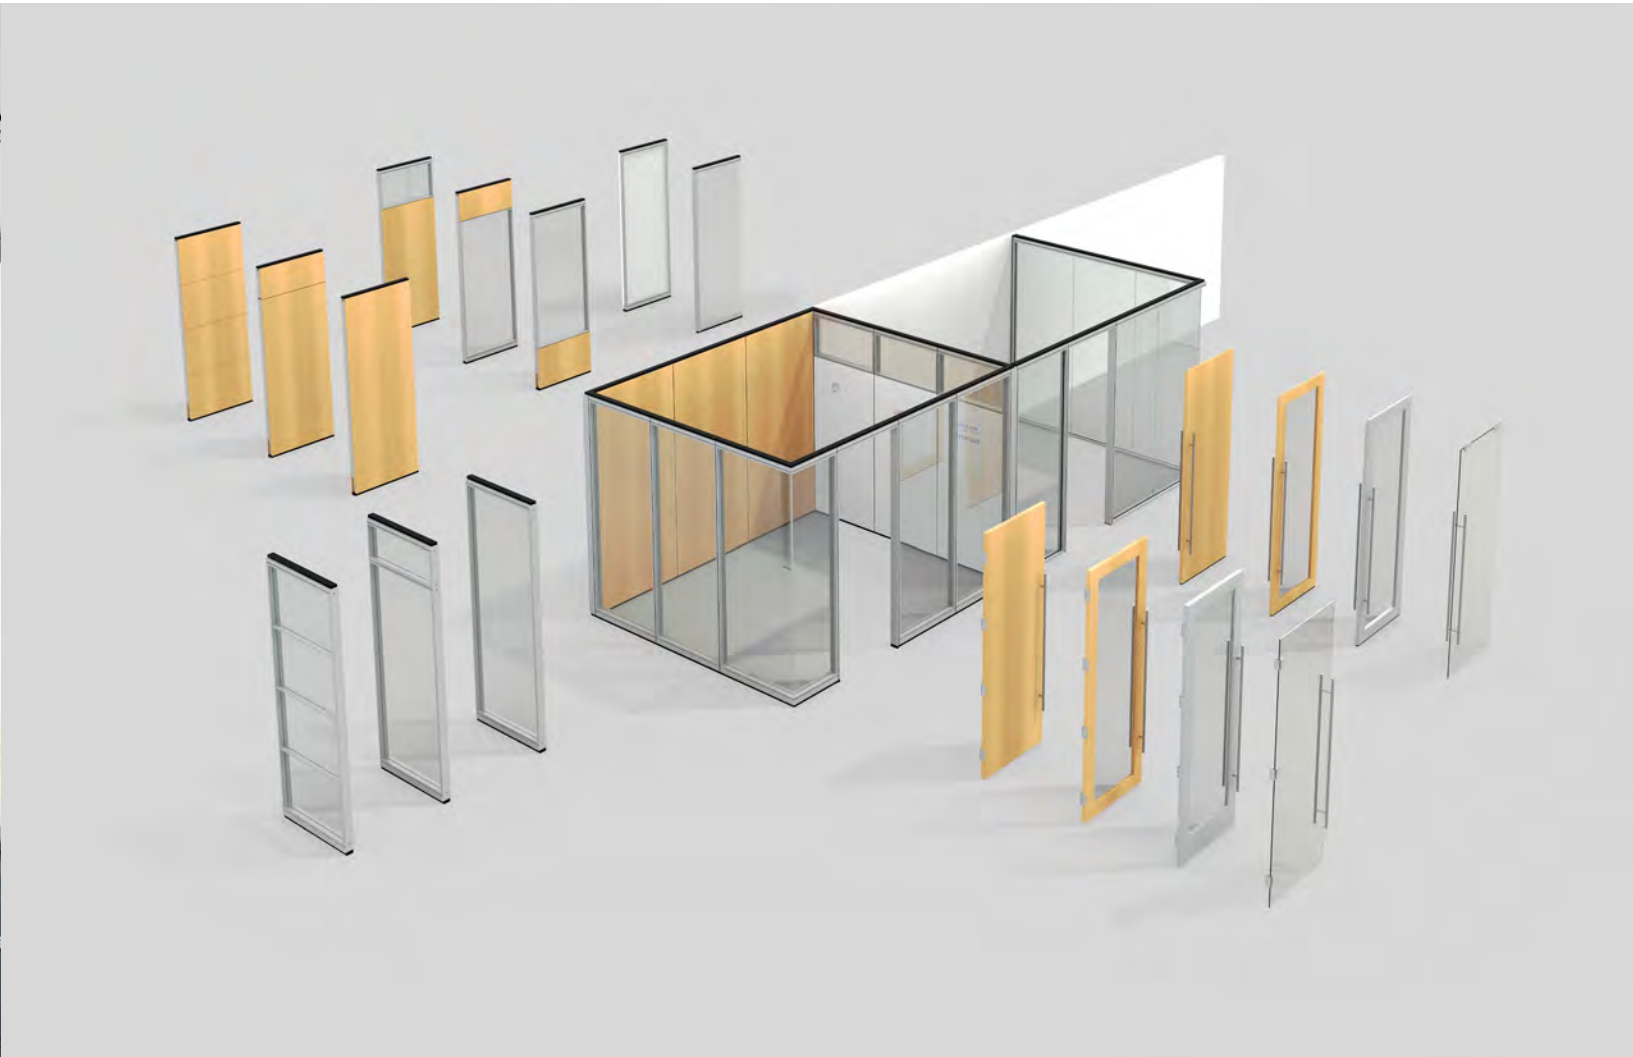

**Solution**

- Modular kit of parts to support future reconfigurability
- Glass fronts bring visual transparency and acoustical privacy
- Movable walls meet both acoustic and flexibility needs
- Sub-architecture and pods infuse future flexibility
- Pre-planned kit of parts for maximum re-use and minimal attic stock

**Results**

- A formally structured, high-performing ecosystem
- Meets changing business needs
- Supports a results-driven, competitive, and speed-oriented culture

**Revolutionary architectural wall system** with absolute versatility

**Acoustical privacy** with the presence of permanent walls

**Effortless flexibility** thoughtfully designed to embrace change

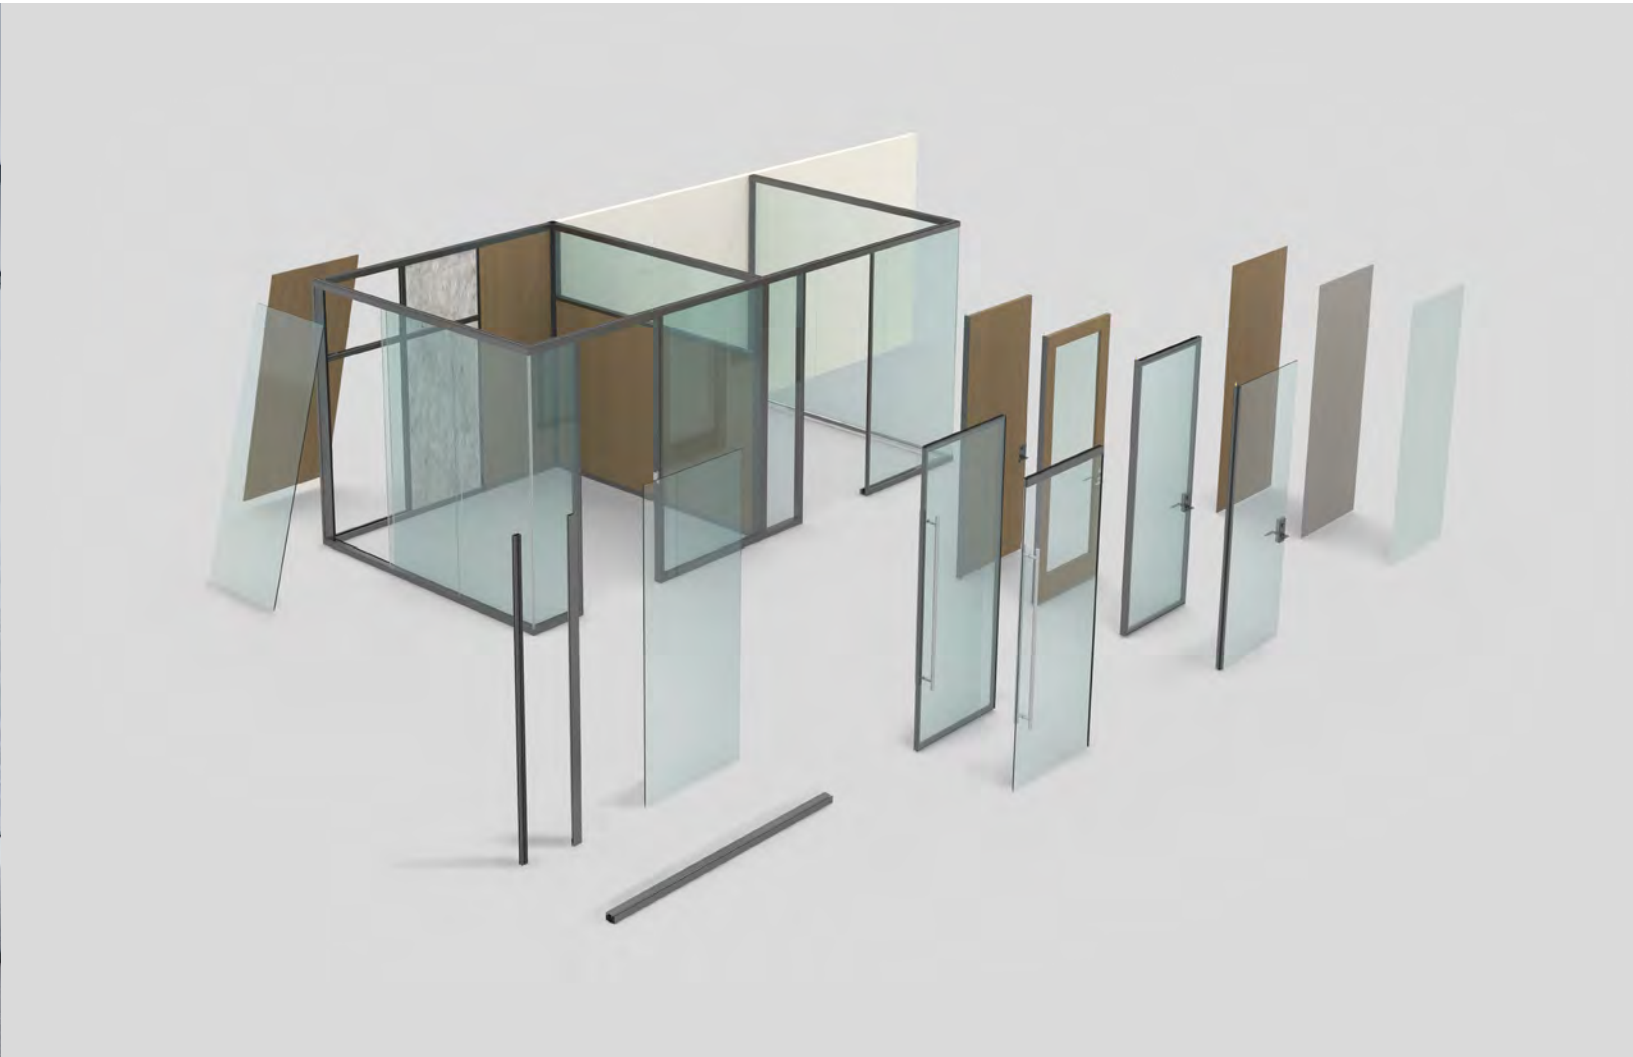

**Pre-assembled** unitized panels

**Thoughtful integration** with existing architecture can be combined with frameless glass options.
