# Cabana Lounge

Seating

The best workplace experiences are built upon variety, choice, and autonomy. People need both “me” and “we” space—destinations for focus work and interaction. Flexible floorplans that offer balance to inspire creativity and support connections contribute to employee comfort and well-being.

Cabana Lounge™ is the first sofa system designed to deliver optimal user performance, comfort, and design for unique destination spaces in the office environment. Its flexible space design enables effective individual and collaborative work, complemented by a light-scale aesthetic that draws people in.

### The Center of Work is Wherever You Sit

Born from observing people at work, Cabana Lounge provides enhanced user comfort and performance through more personal space and a smaller footprint. Upright backs and shorter seat depths promote engaged postures for working while sofas are appropriately sized for two people to collaborate.

### Get Away without Going Away

Cabana Lounge lets designers create levels within a space for a dynamic landscape without blocking the view for people nearby. Unique configurations offer different points of focus, complemented by various elements—seats, backs, arms, screens, and islands—that create space division and the destination variety people need to perform.

### **We Work in the Moment**

Cabana Lounge responds to the ever-evolving office landscape as a sofa system for the temporary moments of work. Its simple, modular statement of line includes integrated worksurfaces, embedded power options, visual privacy, and application flexibility for focused and collaborative work.

### Design Choices

Cabana Lounge offers visual comfort through elegant organic shapes, a mix of materials, and attention to detail. Choose from our carefully selected palette of textiles to complement wood surface and cast aluminum leg color options.

Statement of line may vary by global region.

**Designed by Patricia Urquiola**

Born in Oviedo, Spain, Patricia Urquiola is an award-winning designer and architect with a studio in Milan. Patricia has partnered with Haworth since 2013, sharing her innovative perspective and expertise on product and space design.

## **Aligning People and Space for Optimal Performance**

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
