Soji Seating

Designed to Perform for Caregivers

Soji® seating is the complete package for healthcare—a multi-shift solution with personalized ergonomics and a scalable design to support caregivers' well-being and empower them to provide the best care for their patients.

Ergonomic Features

Based on decades of research and billions of data points, Soji's comfort is backed by science. Soji task chairs and stools are highly adjustable and provide more ergonomic features than others in their class.

- **Seat slider**
- **Forward tilt and tilt tension**
- **Back stop**
- **Adjustable lumbar**
- **Armless, fixed, height-adjustable, or 4-dimensional arm options**

Highly Cleanable Options

Fully cleanable and upholstered in faux leather, Soji Cleanable+ task and support seating is ideal for healthcare environments.

All are also available with a bleach cleanable standard knit back.
