Zody LX

Seating

Elevate your style with Zody® LX, a task chair built on a legacy of informed comfort. Zody LX delivers enhanced ergonomics and well-being as it supports user control and changing postures. Zody LX is also a leader in sustainability. Its fully upholstered back and breadth of material possibilities enables unmatched design freedom.

Features

- The first chair to offer dual-posture option that supports seated and perching postures; ideal for use with height-adjustable tables
- Zody LX, along with Zody II, is the first furniture product to be Cradle to Cradle Certified® Bronze under the Version 4.0 standard
- Dimensionally more accommodating seat provides a greater range of ergonomic support for more people
- Fully upholstered, pebble-shaped back design
- Flexible inner membrane and a height-adjustable lumbar enhance back support
- 4D arms fluidly adjust in height, side to side, front to back, and arm cap pivot position
- Upholstery options include fabrics, faux leather, leather, and bleach-cleanable materials suitable for healthcare applications
