

Beside® Storage Pantry

PRODUCT SHEET

HAWORTH®

How people use storage and what they store is changing. The Beside Storage Pantry offers a flexible, efficient solution. It provides multi-functional, customizable, object-based storage where each user can keep their materials, tools, and personal items at their fingertips. Available in a range of efficient dimensions, Beside Storage Pantry optimizes real estate while giving people personal control of their workspace.

Efficient storage for smaller spaces

As square footage per employee decreases, the Beside Storage Pantry helps organizations do more with less. Beside Storage Pantry optimizes vertical space to help reduce footprints while still meeting storage requirements. It also doubles as an architectural element that can delineate workspaces and create boundaries. With its diverse application, Beside Storage Pantry allows easy specifying with panel-based systems (replacing the return panel), benching, and tables.

Variety and choice

Beside Storage Pantry is available in a range of dimensions with a wide choice of configurations and finishes to support a worker's particular needs. With Beside Storage Pantry, the user can stow small bags and purses, charge technology, and organize other items securely out of sight. Active materials and other items stay organized and accessible. In smaller workstations, it keeps items off the work surface and out of the way. Beside Storage Pantry also has a light-scale, residential aesthetic and four pull styles that complement a variety of applications.

Personal control

Beside Storage Pantry gives the user control of organization within their work and workspace, which can increase their job satisfaction. It allows the user to keep everything well organized and where they need it, in sight and in reach or concealed and secure. Pulling out the Beside Storage Pantry creates a privacy element for a more quiet and focused environment. The pull-out drawer of Beside Storage Pantry expands to create a privacy element. With so many optional accessories available—

including a slat rail, adjustable shelf, accessory and file drawers, coat storage, magnetic side saddle, and optional USB power modules—people can customize their storage to have the most effective configurations.

Statement of Line

The Beside Storage Pantry offers a range of dimensions, giving the option to specify different sizes and pull options based on a variety of needs:

- 12, 15, 18 inches wide
- 24 or 30 inches deep
