Hop

Table

Today, there is an emerging opportunity to promote a holistic state of well-being for people through workspace design. Environments that support diverse workstyles and postures with adjustable solutions are key to engaging—and retaining—talented people.

For both users and designers, Hop® height-adjustable table brings versatility to the work environment. It offers smart solutions that allow implementation of well-being principles while supporting people's variety of tasks throughout the day. With its simple and functional design, Hop easily integrates into the floorplate.

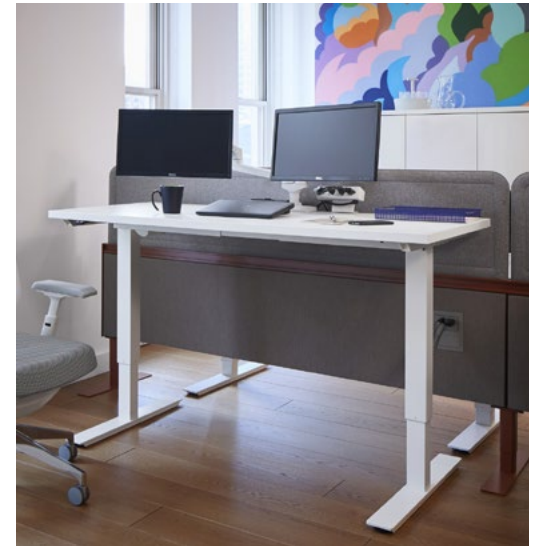

Fits Workplace Needs

Standard and extended height range options support a broad range of people and workstyles. Expandable bases allow width adjustment to accommodate various top sizes. Screens can be mounted to worksurfaces to add separation and a sense of visual privacy where needed. Wire management baskets keep cords tidy for a clean look and feel.

Smooth Operation

With the simple touch of a button, people can easily move between sitting and standing positions whenever they choose. The worksurface lifts and lowers quietly and efficiently, with minimal energy consumption. And, you can count on Hop's durability for day-to-day use.

Design Choices

With a wide range of choices for tops, bases, edge options, and finishes, Hop height-adjustable table offers a breadth of application variety and easy specification.

Statement of line may vary by global region.

Aligning People and Space for Optimal Performance

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
