

Cabana Lounge

Seating

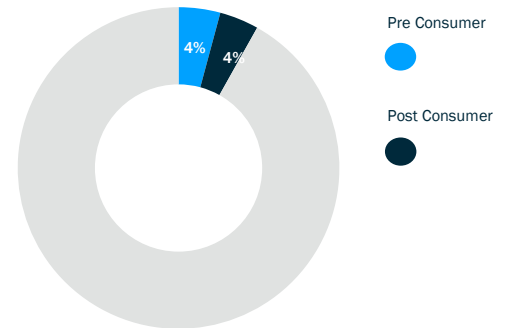

Cabana Lounge is the first sofa system designed to deliver optimal user performance, comfort, and design to create unique destination spaces in the office environment. Its flexible design and array of configurations suit a variety of needs, enabling effective individual and collaborative work.

Cabana Lounge™ seating is manufactured in a zero landfill, ISO 9001 and ISO14001 certified facility in Conover, North Carolina and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Impact by Life Cycle Stage

Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.
