

## Maari Stool

### Seating

Designed to bring balance to the workplace, Maari stools offer a soft, expressive shape that provides warmth and comfort for short-term applications—from conference and training rooms to touchdown and ancillary spaces.

Maari™ seating is manufactured in a zero landfill, ISO 9001 and ISO 14001 certified facility in Bruce, Mississippi and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Material	Material Weight
Steel	13.24 lbs (61%)
Plastic	7.21 lbs (33%)
Aluminum	1.39 lbs (6%)
<b>Total</b>	<b>21.84 lbs (100%)</b>

### Recycled Content

### Recyclability

## Certifications

**Greenguard Gold Certified**  
 Certification # 139965-420  
 Refer to spot.ul.com for certificate

## Life Cycle Assessment (LCA)

Carbon Footprint	67 kg CO <sub>2</sub> eq.
Acidification	0.23 kg SO <sub>2</sub> eq.
Eutrophication	0.030 kg N eq.
Smog	3.3 kg O <sub>3</sub> eq.
Ozone Depletion	6.80E-07 kg CFC11 eq.

## Impact by Life Cycle Stage

## Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.

- Haworth Banned Chemical List Compliant
- Healthier Hospitals Healthy Interiors Compliant
