

# Openest Retreats

## Shared Spaces

Bridging the unexpected and familiar, Openest lounge furnishings bring a distinctly new perspective to the work landscape. Openest Retreats offer an inviting, comfortable refuge for individual work or private interactions between team members.

Openest® retreats are manufactured in Spring Lake, Michigan, USA. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options – through remanufacturing or charitable donations, or recycling of materials.

Material	Material Weight	
Plastic	109.49 lbs	(31%)
Plywood	93.88 lbs	(27%)
Particleboard	48.42 lbs	(14%)
Steel	46.01 lbs	(13%)
Foam	17.14 lbs	(5%)
Other	14.15 lbs	(4%)
Fabric	14.11 lbs	(4%)
Aluminum	8.33 lbs	(2%)
<b>Total</b>	<b>351.53 lbs</b>	<b>(100%)</b>

## Certifications

### Greenguard Gold Certified

Certification # 85102-420

Refer to [spot.ul.com](http://spot.ul.com) for certificate

Haworth is committed to better understanding and reducing the environmental impacts of our products and operations.

Life Cycle Assessments (LCAs) are tools which allow us to evaluate potential environmental impacts of our products from cradle-to-grave including raw material extraction, pre-processing, production, product distribution, use and maintenance, and end-of-life management.

Results of LCA studies provide value in the identification of cost savings, improvement of design and material evaluation, advancement of procurement and transportation decision making, new product development criteria, as well as ultimately reducing

## Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.

## LEED v4 Contributions

Openest Retreats contributes to LEED v4 Certification through the following credits:

- Low Emitting Materials: Product complies with ANSI/BIFMA e3-2014e Credit 7.6.1, 7.6.2 and 7.6.3

\* Product may support additional credits - contact a LEED AP or [Sustainability@Haworth.com](mailto:Sustainability@Haworth.com) to learn more

- Haworth Banned Chemical List Compliant
- Healthier Hospitals Healthy Interiors Compliant

\*Product configuration dependent. Contact [Sustainability@Haworth.com](mailto:Sustainability@Haworth.com)
