PopUp

Tables
The PopUp community table provides a compact surface for individuals or small groups in a variety of spaces—from cafés to open office areas and private enclaves. With a range of organic shapes, widths, and heights, PopUp helps create inviting spaces that support collaborative work or socializing.

PopUp™ tables are manufactured in a zero landfill, ISO 9001 and ISO 14001 certified facility in Holland, Michigan and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Carbon Footprint
130 kg CO₂ eq.

Acidification
0.45 kg SO₂ eq.

Eutrophication
0.110 kg N eq.

Smog
6.4 kg O₃ eq.

Ozone Depletion
3.00E-06 kg CFC11 eq.

Impact by Life Cycle Stage

Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.

- Haworth Banned Chemical List Compliant
- Healthier Hospitals Healthy Interiors Compliant

LEED v4 Contributions

PopUp contributes to LEED v4 Certification through the following credits:

- Low Emitting Materials: Product complies with ANSI/BIFMA e3-2014e Credit 7.6.1 and 7.6.2

* Product may support additional credits - contact a LEED AP or Sustainability@Haworth.com to learn more
