

# X Series VSU

## Storage

The X Series personal storage tower consolidates storage into a single multifunctional unit that takes advantage of vertical space. Convenient, secure, and versatile, it helps people perform more effectively and gain control of their workspace.

X Series® vertical storage units are manufactured in a zero landfill, ISO 9001 and ISO14001 certified facility in Big Rapids, Michigan and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Material	Material Weight	
Steel	87.19 lbs	(63%)
Particleboard	45.42 lbs	(33%)
Surface Finish	2.66 lbs	(2%)
Laminate	2.55 lbs	(2%)
Plastic	0.60 lbs	(0%)
Adhesive	0.19 lbs	(0%)
<b>Total</b>	<b>138.60 lbs</b>	<b>(100%)</b>

## Certifications

**Greenguard Gold Certified**  
 Certification # 999-420  
 Refer to [spot.ul.com](http://spot.ul.com) for certificate

**FSC® certified wood is available**  
 as a standard product offering  
 Chain of Custody Code: SCS-COC-001218

**BIFMA Level 3 certified**  
 Refer to [NSF.org](http://NSF.org) for certificate

Haworth is committed to better understanding and reducing the environmental impacts of our products and operations.

Life Cycle Assessments (LCAs) are tools which allow us to evaluate potential environmental impacts of our products from cradle-to-grave including raw material extraction, pre-processing, production, product distribution, use and maintenance, and end-of-life management.

Results of LCA studies provide value in the identification of cost savings, improvement of design and material evaluation, advancement of procurement and transportation decision making, new product development criteria, as well as ultimately reducing

## Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.

- Haworth Banned Chemical List Compliant
- Healthier Hospitals Healthy Interiors Compliant

## LEED v4 Contributions

X Series VSU contributes to LEED v4 Certification through the following credits:

- Low Emitting Materials: Product complies with ANSI/BIFMA e3-2014e Credit 7.6.1, 7.6.2 and 7.6.3
- Building Product Disclosure and Optimization - EPD's: Product-specific Type III EPD available

\* Product may support additional credits - contact a LEED AP or [Sustainability@Haworth.com](mailto:Sustainability@Haworth.com) to learn more
