

Collaborate

Seating

With urban-classic style, Collaborate chairs are sophisticated and practical as well as roomy and comfortable. They make a powerful statement in any setting.

Collaborate® seating is manufactured in a zero landfill, ISO 9001 and ISO14001 certified facility in High Point, North Carolina and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Material	Material Weight	
Steel	46.30 lbs	(82%)
Plastic	3.40 lbs	(6%)
Plywood	3.05 lbs	(5%)
Foam	3.00 lbs	(5%)
Other	0.90 lbs	(2%)
Total	56.65 lbs	(100%)

Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.

LEED v4 Contributions

Collaborate contributes to LEED v4 Certification through the following credits:

- Low Emitting Materials: Product complies with ANSI/BIFMA e3-2014e Credit 7.6.1, 7.6.2 and 7.6.3

* Product may support additional credits - contact a LEED AP or Sustainability@Haworth.com to learn more
