Pendant Lights

BuzziPleat LED's lightweight sculptural shade is created by pleating or smocking sound absorbing BuzziFelt. The architectural folds maximize surface area, delivering exceptional acoustic performance. The shade is available in two sizes and an Edel or Ripple pattern with a Black (BTL-1) or OffWhite (BTL-2) lace detail. The LED light source consists of a black powder coated metal heatsink fitted with a COB (chip on board) LED source, finished with a frosted glass globe. The distance between the light element and the acoustic shade can be adjusted and should be more than 1.97". The three metal suspension cables are available in two lengths. Powder coated black metal ceiling canopy, black fabric power cord, and mounting bracket included.

Additional Notes

BuzziPleat LED features acoustic absorption and diffusion for mid tones and high tones.

BuzziPleat LED lighting is UL and OE certified.

BuzziPleat is GREENGUARD Gold certified.
