Features and Specifications

Stools

Su stool seats are available in materials ranging from solid reclaimed wood, recycled polyethylene (PET), cork, and eco-concrete. The base is available in recycled anodized aluminum or reclaimed wood. The footrest on Su medium and high stools is made of aluminum. The glides are made of soft thermoplastic polyurethane (TPU).

Seat Pad

The optional seat pad is available in recycled PET felt with a black, non-slip backing.

Additional Notes

Su stools specified with a Clear Anodized Aluminum (EMT-1) or Black Anodized Aluminum (EMT-3) base will have a footrest in the same finish. When a wood base is specified, the stool will have a silver aluminum footrest.

Su seating complements Su tables.

Su stools with recycled PET or eco-concrete seats specified with aluminum bases are designed to be used in indoor and outdoor settings. When used in outdoor environments, Su may require special care. Refer to the Ancillary Brands Surface Care Instructions for details. Su stools with wood or cork seats, and stools with wood bases are not suitable for outdoor use.
