Features and Specifications

Runners

Bandas Space runners are comprised of 100% new wool with a Velcro loop backing. Multiple runners can be connected using strips of Velcro hooks. Each runner comes with one strip of Velcro hooks, and a set of four painted steel weights which slip into pockets on the underside of the runner. Bandas Space runners are made using a hand loom technique, combined with crochet and embroidery methods. The edges along the length of the rug are always orange. Runner thickness is approximately 0.4" (10mm).

Velcro Hook

An orange strip of Velcro hooks can be used to secure multiple runners together by attaching to the Velcro loop backing on each Bandas Space runner.

Additional Notes

New wool runners may shed fibers during the first few months. This is a normal feature of wool and is in no case sign of deficient quality.

Each runner is made by hand and therefore has a unique design. Variations in size (not exceeding 5%) may occur. Any variations in the fabric or color are not errors or defects.

Bandas Space runners comply with 2010 ADA Standards for Accessible Design.

Bandas Space runners compliment Bandas Space seating and pillows.
