

HAWORTH Pablo

UMA

Sound Lantern

The portable UMA Sound Lantern® provides warm, dimmable LED lighting and 360° high-fidelity surround sound for offices, collaborative spaces, or social settings—indoors or out. The rechargeable light includes an intuitive full-range light control dial for dimming and Bluetooth connectivity that ensures rich sound with touch-sensitive volume control.

Details

- Warm dim LED bulb
- Charging time up to 3.5 hours
- Battery life up to 8 hours per charge
- Diffused polycarbonate lens with a steel grille and silicone feet
- Interchangeable leather handles in grey and tan
- Protective cotton bag with leather drawstring
- UMA Mini Sound Lantern also available

Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.

Pablo Pardo

Since establishing Pablo Designs in San Francisco in 1993, Pardo's studio has gained international recognition for its innovative lighting and home furnishings. Pardo attributes his early passion for design to his upbringing, which he spent surrounded by a family of artists and engineers. Having combined traits from each sphere, he's shaped a unique creative process upon which his studio thrives.

Carmine Deganello

Based in Amsterdam and Milan, Deganello's creative process begins with materiality and a highly experimental, empirical approach. Research on materials and the ways in which they can unexpectedly drive the productive process is essential to his work. Deganello has been a long-term collaborator with Pablo Designs in San Francisco.
