#### Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.

## **Haworth Design Studio**

The Haworth Design Studio collaborates with research and development partners worldwide to identify, develop, and launch innovative products. With design centers in three key locations—China, Germany, and the United States—the team focuses on creating multi-generational products and global platforms designed with regional needs and preferences in mind.
